Robert Allen Baker,1992 Alien abductions satanic kidnappings the channeling of spirits the recall of past lives these and similar bizarre experiences are reported almost daily by the media Is there a rational explanation for these strange events According to psychologist Robert A Baker such irregular or supernatural experiences are manifestations of cryptomnesia or hidden memories a phenomenon in which experiences that originally make little conscious impression are filed away in the brain and later are suddenly remembered in altered form Referring to the most recent scientific evidence on memory and the brain Dr Baker dispels many supernatural beliefs outlining what should and should not be defined as mental disease and how the boundaries of what can be termed normal but aberrant behavior can be confused by therapists particularly those susceptible to fringe beliefs He also explains how delusions and illusions affect behavior and discusses the role of hypnosis imagination and suggestion in the creation of otherworldly experiences In the final chapters Baker looks at how the media has aided and abetted paranormal beliefs and promoted the growth of superstition and urban legends      **Alien Dawn: An Investigation into the Contact Experience** Colin Wilson,2012-02-29 Alien Dawn is the most comprehensive bird s eye view of the subject ever undertaken and the conclusions Wilson draws are of overwhelming significance to us all Here Wilson describes what he found as he set out to piece together this vast complex jigsaw puzzle whose components include poltergeists lake monsters ancient folklore time slips out of body experiences mystical awareness and psychic travel to other worlds as well as allegations of worldwide government cover ups      *Captured by Aliens?* Nigel Watson,2020-06-09 New Hampshire couple Betty and Barney Hill provided Americans with what is essentially the original alien abduction story Since their story became public in the early 1960s many thousands of Americans have likewise come forward with similar stories of traumatic experiences Sometimes the abductee has little conscious recollection of these events but through nightmares dreams flashbacks and hypnosis they eventually learn more Sometimes the participants are bewildered To get a better understanding of the opposing viewpoints of skeptic and believer the Betty and Barney Hill case is used to examine the wider context of such encounters their historical origins media influences and the latest extraterrestrial psychological paranormal conspiracy and sociological theories that surround them      **Alien Abductions** Conrad Bauer,2020-10-18 The ideas of alien

abductions have fueled our imagination. What if it happened to you? Discover true cases of alien abductions from people claiming being taken by aliens and that came back to tell their story. Imagine you're out alone at a park somewhere taking in the scenery and simply enjoying the exercise of a nice walk. Suddenly there's a strange feeling in the air. You don't know what it is, but things somehow just don't seem quite right. You look up and there's a light in the sky. You see a bright flash and then moments later the light is gone and you resume your hike through the park. According to many alleged alien abductees, these experiences are often the few sparse moments of conscious recall of an abduction. The individual does not know it at the time, but he has been an unwilling participant in an extraordinary event. In such a situation, the only real clue would be a quick glance at the time. Our hypothetical hiker looks down at his watch and realizes that over an hour has passed completely unaccounted for. Abductees and UFO researchers contend that it is within such an hour of so-called missing time that alien entities from who knows where conduct examinations and experiments on us hapless humans. Once the aliens have finished their tasks, these diligent ET scientists wipe our conscious memories and return us safely to Earth. But their technology is apparently not perfect, because some Earth dwellers have allegedly been able to uncover these supposedly lost memories through hypnotic regression. This book takes a look at some of these startling claims of alien-human interactions that the world has come to know as alien abductions. This is not an attempt to prove the veracity of these claims, but simply to present them as they are reported so that readers can decide for themselves. **Into The Fringe** Dr. Karla Turner PhD, 2014-03-10. A True Story of Alien Abduction. One of the most important, sincere, and honest abduction stories out there. Finally back in print. Following the 2013 reissue of *TAKEN*, a book that has been out of print for several years and fetched excessive amounts amongst collectors and those wishing to get their hands on such a legendary piece of non-fiction, *INTO THE FRINGE* is where it all began for Dr. Karla Turner and her family. As with the reissue of *TAKEN*, *INTO THE FRINGE* is an officially authorized republication with the sole input of Karla Turner's widower, Elton. Endorsed and approved by Elton Turner with the highest respect for the importance of the story, we excitedly bring *INTO THE FRINGE* to the 21st century. *Into the Fringe* documents the account of alien abduction and how Karla Turner, along with her family, uncovered the memories and physical evidence of their encounters with beings from outside of our own planet. This brave and defiant refusal, in the name of humanity, to countenance suffering from an alien tyrant masquerading as a benefactor is Karla Turner's final legacy. John Chambers, *UFO Magazine*.

**Abductions and Aliens** Chris A. Rutkowski, 1999-09-01 We can't escape them aliens are everywhere They sell us soft drinks and star in their own sitcoms But to the many people who believe they have been abducted aboard strange crafts aliens are a very serious reality Stories of these encounters taken from investigators' files have been vividly depicted in television specials and motion pictures Despite their predominance as a cultural phenomenon experts offer drastically conflicting opinions aliens are harmless creatures whose aim is to better understand humans aliens are angel-like entities here to enhance our spiritual awareness aliens are conspiring with the government in a plot to enslave humans and aliens are genetically breeding with humans to create a new race of hybrids But what is really going on Are aliens abducting thousands of unsuspecting people each year Are they then inserted with tracking devices and monitored Based on his own investigative files and almost twenty-five years of research science writer Chris Rutkowski asks hard questions looking critically yet compassionately at the stories of abductees He is an astronomer educator and published commentator within the area of study known as ufology Rutowski presents case histories of many abductees showing both their diversity and similarities and examines how our understanding is shaped by media by science and by society itself
