Chris Claremont, John Byrne

Uncanny X Men 1963 2011 269:

The Assimilation of Yogic Religions through Pop Culture Paul G. Hackett, 2017-10-23 The image of the meditating yogi has become a near universal symbol for transcendent perfection used to market everything from perfume and jewelry to luxury resorts and sports cars and popular culture has readily absorbed it along similar lines Yet the religious traditions grounding such images are often readily abandoned or caricatured beyond recognition or so it would seem The essays contained in *The Assimilation of Yogic Religions through Pop Culture* explore the references to yogis and their native cultures of India Tibet and China as they are found in the stories of many famous icons of popular culture from Batman Spider Man and Doctor Strange to Star Trek Doctor Who Twin Peaks and others In doing so the authors challenge the reader to look deeper into the seemingly superficial appropriation of the image of the yogi and Asian religious themes found in all manner of comic books novels television movies and theater and to carefully examine how they are being represented and what exactly is being said
