Uncommon Sense Understanding Natures Truths Across Time And Culture:

The End of Time Anthony Aveni, 2009-10-01 December 21 2012 The Internet bookshelves and movie theaters are full of prophecies theories and predictions that this date marks the end of the world or at least the end of the world as we know it Whether the end will result from the magnetic realignment of the north and south poles bringing floods earthquakes death and destruction or from the return of alien caretakers to enlighten or enslave us or from a global awakening a sudden evolution of Homo sapiens into non corporeal beings theories of great impending changes abound In *The End of Time* award winning astronomer and Maya researcher Anthony Aveni explores these theories explains their origins and measures them objectively against evidence unearthed by Maya archaeologists iconographers and epigraphers He probes the latest information astronomers and earth scientists have gathered on the likelihood of Armageddon and the oft proposed link between the Maya Long Count cycle and the precession of the equinoxes He then expands on these prophecies to include the broader context of how other cultures ancient and modern thought about the end of things and speculates on why cataclysmic events in human history have such a strong appeal within American pop culture [The Materialization of Time](#)

[in the Ancient Maya World](#) David A. Freidel, Arlen F. Chase, Anne S. Dowd, Jerry Murdock, 2024-01-09 This book discusses the range of ways the ancient Maya people expressed timekeeping in daily life through their architecture arts writing beliefs and practices

The Archaeology of Measurement Iain Morley, Colin Renfrew, 2010-04-26 Explores the archaeological evidence for the development of measuring activities in numerous ancient societies and the implications of these discoveries

Uncommon Sense Anthony F. Aveni, 2006 In *Uncommon Sense* Aveni explores the common and conflicting ways that ancient and contemporary societies have searched for the literal truth about the natural world s mysteries from dinosaur bones to the Star of Bethlehem Aveni demonstrates that a society s approach to making sense of the natural world can serve as a working definition of its culture so strongly does it resonate with fundamental values and assumptions *Aliens Like Us?* Anthony Aveni, 2025-03-18 In this authoritative accessible and at times funny and irreverent work distinguished anthropologist Anthony Aveni speaks to the trained astrophysicist and the curious layperson alike about a simple but previously unexplored question Why do we assume aliens if they are really out there behave just like us Aveni s newest work departs from the usual scientific treatment of extraterrestrial intelligence by probing the historical and widely neglected anthropological record which offers relevant analogous incidents of contact among terrestrial cultures Beginning with theories of the evolution of life and culture advocated by astrobiologists *Aliens Like Us* explores how the Western cultural imagination is influenced by ways of knowing that are deeply embedded in the minds of the questioners for example how we consider the ownership of property the idea of progress and even the way we classify things The lessons of anthropology offer not only value structures from other cultures that differ profoundly from our own but also testify to the diverse ways in which alien cultures interact Finally on the question of potential first contact Aveni closes with a fascinating exploration of

the image of extraterrestrials in popular culture that is derived in part from the hugely influential realm of science fiction

Xurt'an Suzanne Cook, 2019-08 Xurt'an the end of the world showcases the rich storytelling traditions of the northern Lacandon of Naha through a collection of traditional narratives songs and ritual speech Formerly isolated in the dense tropical rainforest of Chiapas Mexico the Lacandon Maya constitute one of the smallest language groups in the world Although their language remains active and alive their traditional culture was abandoned after the death of their religious and civic leader in 1996 Lacking the traditional contexts in which the culture was transmitted the oral traditions are quickly being forgotten This collection includes creation myths that describe the cycle of destruction and renewal of the world the structure of the universe the realms of the gods and their intercessions in the affairs of their mortals and the journey of the souls after death Other traditional stories are non mythic and fictive accounts involving talking animals supernatural beings and malevolent beings that stalk and devour hapless victims In addition to traditional narratives Xurt'an presents many songs that are claimed to have been received from the Lord of Maize magical charms that invoke the forces of the natural world invocations to the gods to heal and protect and work songs of Lacandon women whose contribution to Lacandon culture has been hitherto overlooked by scholars Women's songs offer a rare glimpse into the other half of Lacandon society and the arduous distaff work that sustained the religion The compilation concludes with descriptions of rainbows the Milky Way as the white road of Our Lord and an account of the solstices Transcribed and translated by a foremost linguist of the northern Lacandon language the literary traditions of the Lacandon are finally accessible to English readers The result is a masterful and authoritative collection of oral literature that will both entertain and provoke while vividly testifying to the power of Lacandon Maya aesthetic expression *Foundations of New World Cultural Astronomy* Anthony F. Aveni, 2008 Cultural astronomy first called archaeoastronomy has evolved at ferocious speed since its genesis in the 1960s with seminal essays and powerful rebuttals published in far flung specialized journals Until now only the most closely involved scholars could follow the intellectual fireworks In *Foundations of New World Cultural Astronomy* Anthony Aveni one of cultural astronomy's founders and top scholars offers a selection of the essays that built the field from foundational works to contemporary scholarship Jeff Herman's Guide to Book Publishers, Editors & Literary Agents 2007 Jeff Herman, 2006-12 Presents a guide to the names and specialties of American and Canadian publishers editors and literary agents including information on the acquisition process and on choosing literary agents **Journal of Scholarly Publishing**, 2006 **Choice**, 2008

The Publishers Weekly, 2006 **Book Review Index - 2009 Cumulation** Dana Ferguson, 2009-08 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a

three issue subscription covering the current year or as an annual cumulation covering the past year **Understanding the Whole Student** Clifford Mayes, 2007 Understanding the Whole Student presents a holistic approach to multicultural educational issues by viewing them in terms of the student as a physical psychosocial cognitive ethical and spiritual being Conversely these levels of a student's being cannot be seen apart from the student's cultural identities This unique book demonstrates that in a pluralistic democracy good teaching and deep learning must be multicultural and must look at the student as a whole being not just as a future worker in a transnational corporate economy as is currently the case with both neo liberal and neo conservative programs for reform The authors contend that good education is and must be multicultural in order to gain a deeper perspective on issues under analysis in the classroom through the sharing and negotiating of many different cultural perspectives The Truth Seeker ,1915 **The Friend, Or, Advocate of Truth** ,1877 **The Index ...**
Benjamin Franklin Underwood, 1881 **Free Religious Index** William James Potter, 1881 *The Christian Leader* ,1929
The Universalist Leader ,1929 **Normal Instructor and Teachers World** ,1902
