

"The journalism in this book rises above the norm, bringing us voices we do not easily hear, upsetting stereotypes and generalities. It challenges editors and reporters to think again about how they can and should cover such issues."

**Affective Health and Masculinities in South Africa** Hans Reihling, 2020-04-03 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use interpersonal violence suicidality and AIDS as well as recovery cross culturally With a focus on three male protagonists living in very distinct urban areas of Cape Town this comparative ethnography shows that men s struggles to become invulnerable increase vulnerability Through an analysis of masculinities as social assemblages the study shows how affective health problems are tied to modern individualism rather than African tradition that has become a cliché in Eurocentric gender studies Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self reliance This book provides a rare perspective on young men s vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health Moreover it shows how men change in the face of distress in ways that may look different than global health and gender transformative

approaches envision Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences Contributing to current debates on mental health and masculinity this volume will be of interest to scholars from various disciplines including anthropology gender studies African studies psychology and global health

From Boys to Men Tamara Shefer, 2007 The current emphasis in research and education on women and girls is fraught with problems It has raised a concern that boys and men should be included in research and intervention work on gender equality and transformation As a result academics with a background of many years of work in women s and gender studies undertook a research project focusing on the construction of masculinities among young men From Boys to Men was born out of this project This highly original work arises from the conference From Boys to Men held in January 2005 It represents the work of some of the best known theorists and researchers in masculinities and feminism in South Africa on the continent and internationally The subjects covered are based on rich ethnographic studies mostly in South Africa but also elsewhere in Africa Acknowledging that there are multiple versions of masculinity and that some are more valued than others this book is concerned with documenting both hegemonic discourses on masculinity as well as resistances and challenges to dominant forms of being a boy or man in different contexts of space and time From Boys to Men provides valuable material for those working with issues of gender identity and power and will sharpen understanding of males inform community based interventions and facilitate theory building This impressive collection of research on men boys and masculinities would have been impossible just a generation ago It took the worldwide impact of the women s liberation movement and the many feminisms that have since developed to bring gender into focus and to bring men into focus as participants in a gender system Raewyn Connell Professor at the University of Sydney author of Masculinities 1995 Given the extant paucity of research and literature on masculinities this book will undoubtedly prove to be an invaluable resource for scholars in the field of gender studies The editors of the volume should be commended for this timely well constructed and significant contribution to the literature on masculinities studies both in South Africa and internationally Norman Duncan Chair of Psychology University of the Witwatersrand Setting this collection apart from existing scholarship on masculinities in South Africa is its interrogation of the gendered rhetoric of boyhood and manhood in the context of HIV Aids This is a multilayered and rich collection that suggests masculinities have the potential to be unmade and remade The volume usefully opens up new avenues of analysis telling us that masculinities are always in process under negotiation contradictory for ever in crisis Vasu Reddy Gender and Development Unit Human Sciences Research Council

Becoming Men Malose Langa, 2020-04-01 This vivid evocation of the lives of 32 boys from a Johannesburg township is essential reading for anybody wishing to understand black masculinity in South Africa Becoming Men is the story of 32 boys from Alexandra one of Johannesburg s largest townships over a period of twelve seminal years in which they negotiate manhood and masculinity Psychologist and academic Malose Langa has documented graphically what it means to be a young black man in contemporary South Africa

**Changing Men in Southern Africa** Robert Morrell, 2001-08-18. Despite claims that men are in crisis, the domestic and public realms of Southern Africa are still dominated by men. This examination of modern men aims to show that the power of man is not a fixed concept and that it is not true that all men share the spoils of dominance.

*African Masculinities* L. Ouzgane, R. Morrell, 2005-03-15. While masculinity studies enjoys considerable growth in the West, there is very little analysis of African masculinities. This volume explores what it means for an African to be masculine and how male identity is shaped by cultural forces. The editors believe that to tackle the important questions in Africa—the many forms of violence, wars, genocides, familial violence, and crime and the AIDS pandemic—it is necessary to understand how a combination of a colonial past, patriarchal cultural structures, and a variety of religious and knowledge systems creates masculine identities and sexualities. The work done in the book particularly bears in mind how vulnerability and marginalization produce complex forms of male identity. The book is interdisciplinary and is the first in depth and comprehensive study of African men as a gendered category.

*Masculinity and Men's Health Seeking Behaviours Amongst Black/ African Men* Ntokozo Nzama, 2013.

**Exposing Men : The Science and Politics of Male Reproduction** Cynthia R. Daniels, Associate Professor of Political Science, Rutgers University, 2006-08-03. *Exposing Men* examines how ideals of masculinity have long skewed our societal and scientific understanding of one of the pillars of male identity: reproductive health. Only with the recent public exposure of men's reproductive troubles has the health of the male body been thrown into question, and along with it, deeper masculine ideals. Whereas once men's sexual and reproductive abilities were the most taboo of topics, today, erectile dysfunction is a multi-billion dollar business, and magazine articles trumpet male reproductive decline with headlines such as "You're Half the Man Your Father Was." Cynthia R. Daniels casts a gimlet eye on our world of plummeting sperm counts, spiking reproductive

cancers sperm banks and pharmacological cures for impotence in order to assess the true state of male health What she finds is male reproductive systems damaged by toxins and war and proof piling up that men through sperm pass on harm to the children they father Yet despite the evidence that men's health as much as women's significantly affects the vitality of their offspring Daniels also sees a society holding on to outdated assumptions one in which men ignore blatant health risks as they struggle to live up to antiquated ideas of manliness
