Residential Real Estate Anupam Nanda, 2019-03-20 Residential Real Estate introduces readers to the economic fundamentals and emerging issues in housing markets The book investigates housing market issues within local regional national and international contexts in order to provide students with an understanding of the economic principles that underpin residential property markets Key topics covered include Location choice in urban areas Housing supply and demand Housing finance and housing as an asset class Demographic shifts and implications for housing Sustainable homes and digitalisation in housing Drawing on market level information readers are encouraged to recognise the supply and demand drivers and modelling of dynamic housing markets at various spatial scales and the implications of trends within an urban and regional context e.g. urbanisation ageing population migration digitalisation With research based discussions and coverage of relevant literature this is an ideal textbook for students of residential real estate property and related business studies courses at UG and PG levels as well as a reference book with research topics for researchers This book will also be of interest to professionals and policymakers

Government Discourse and Housing Jago Dodson, 2007 This volume uses post structuralist theory to develop a framework for the analysis of government institutions and policy and applies this to the study of government housing policy in Western nations It uses the post structuralist approach to examine detailed case studies of housing policies in Europe Australia and New Zealand thereby evaluating the

strengths and weaknesses of its application *Neoliberalism, Economic Radicalism, and the Normalization of Violence*
 Vicente Berdayes, John W. Murphy, 2015-12-11 This compelling volume analyzes the wide scale societal impact of neoliberal economic policy on contemporary life and behavior Synthesizing perspectives from politics and economics with insights from psychology and linguistics it argues that market driven public institutions promote antisocial thinking discourage critical reflection and inure individuals to inequity and cruelty Chapters cite the ubiquity of violence in modern society from the marketing of the military to impersonal mass upheavals in the job market as devaluing human worth and thus self worth But the editors also assert that these currents are not terminal and the book concludes by identifying conditions potentially leading to a more civil and egalitarian future Included in the coverage The language of current economics social theory the market and the disappearance of relationships Neoliberalism and education the disfiguration of students Slicing up societies commercial media and the destruction of social environments Neoliberalism and the transformation of work Economics the network society and the ontology of violence A new economic order without violence Given the centrality of economic events on the global stage Neoliberalism Economic Radicalism and the Normalization of Violence stands out as both a springboard for discussion and a call to action to be read by political and cultural economists political scientists and sociologists
