Appealing to Scripture in Moral Debate Charles H. Cosgrove, 2002 Arguing from scripture is one of the ways that Christians test their moral judgments But are all methods of appealing to the Bible equally valid and effective In this book Charles Cosgrove looks at the church's long tradition of moral debate and analyzes five important hermeneutical rules that guide contemporary use of

scripture in ethical argument After introducing the nature of moral arguments generally Cosgrove devotes one chapter to each of the five rules of biblical interpretation that make ethical appeals to scripture persuasive He sets forth each rule s rationale provides examples of its operation and subjects it to critique Based not only on the work of biblical scholars and Christian ethicists but also on Cosgrove s own experience with debates in classrooms churches and other Christian contexts this volume is a valuable aid to readers who employ moral reasoning in real life settings

Reconstructing Theological Ethics P. A. McGavin,2024-02-19 Theological Ethics in the book title is intended to mark a departure from the manner of Catholic practice named Moral Theology This departure has two strands because the practice that the Second Vatican Council critically addressed was a manualist tradition while much of the practice following the Council has been represented as relativist This book is not manualist in that the focus is upon method rather than on codified specification of behaviours The work is not relativist in that the focus on method is firstly scriptural approaching scripture in a holistic or canonical manner and further is lawful in an approach of law that focuses less on precept and more on understandings of natural law that brings together phenomenological evidences and scriptural evidences The scriptural and natural law perspective present in the book also engages cross disciplinary and inter disciplinary learnings These streams of scripture natural law and inter cross disciplinary learnings have a confluence in discourse in the manner of dialogue a manner that is dialogical An essential aspect of dialogue under the banner of Reconstructing Theological Ethics is that it should engage contemporary culture not in a sense that contemporaneity or modernity should be determinative but in the sense that the reasoning argumentation and dialogue should have resonance with contemporary thinking and rethinking of issues that remain in contention for contemporary audiences Theological Ethics is a wide remit and the book provides a methodological focus on Selected Topics in Human Sexuality

Moral Catechesis and Catholic Social Teaching Joaquim Parron Maria,2003-04-18 The purpose of this book is twofold first to examine whether and to what extent three representative catechisms widely used in Latin America have incorporated official Catholic social teaching and second to suggest ways in which Catholic social teaching can be further integrated into catechetical approaches In the same way this approach tries to grasp and give some contributions to the call of Pope John Paul II to the Church in the American continents Ecclesia in America for developing a catechesis for social justice and peace Thus this book addresses and proposes some lines of development to integrate social ethics into moral catechesis
