Understanding the Qur'ān Muṣṭafá Maḥmūd, 2004

Contemporary Approaches to the Qur'an and its

Interpretation in Iran Ali Akbar, Abdullah Saeed, 2019-10-24 This book sets out how contemporary Iranian scholars have approached the Qur'an during recent decades. It particularly aims to explore the contributions of scholars that have emerged in the post 1979 revolution era outlining their primary interpretive methods and foundational theories regarding the reading of the Qur'an. Examining issues such as the status of women, democracy, freedom of religion and human rights, this book analyses the theoretical contributions of several Iranian scholars, some of which are new to the English speaking academy. The hermeneutical approaches of figures such as Abdolkarim Soroush, Muhammad Mojtahed Shabestari, Mohsen Kadivar, Hasan Yousefi Eshkevari, Abolqasem Fanaie and Mostafa Malekian are presented and then analysed to demonstrate how a contextualist approach to the Qur'an has been formed in response to the influence of Western Orientalism. The effect of this approach to the Qur'an is then shown to have wide ranging effects on Iranian society. This study reveals Qur'anic thought that has been largely overlooked by the West. It will therefore be of great use to academics in Religious, Islamic and Qur'anic studies as well as those studying the culture of Iran and the Middle East more generally.

Interpreting the Qur'ān

Abdullah Saeed, 2006 How is the Qur'an central to all Muslim societies to be understood today in order to meet the needs of these societies? Abdullah Saeed, a distinguished Muslim scholar, explores the interpretation of the ethico-legal content of the Qur'an whilst taking into consideration the changing nature of the modern world. Saeed explores the current debates surrounding the interpretation of the Qur'an and their impact on contemporary understanding of this sacred text. Discussing the text's relevance to modern issues without compromising the overall framework of the Qur'an and its core beliefs and practices, he proposes a fresh approach which takes into account the historical and contemporary contexts of interpretation. Inspiring healthy debate, this book is essential reading for students and scholars seeking a contemporary approach to the interpretation of the Qur'anic text.

Discovering the Qur'an

Neal Robinson, 2003 This latest edition of *Discovering the Qur'an* includes a new preface by the author. Used by students around the world as a reliable guide to reading a translation of the Qur'an, it shows how the Qur'an is experienced by Muslims, describing the rhythmic and rhyme scheme structures, the context in which it is heard, the part played by learning by heart and the importance of calligraphy. It is also about the Qur'an and its relationship to Muhammed, as well as helping to divine the ordering of the surahs or chapters. In an English speaking world newly sensitized to Islam and its believers, *Discovering the Qur'an* will be an invaluable tool to greater understanding.

Structural Dividers in the Qur'an

Marianna Klar, 2020-12-03 This volume showcases a wide range of contemporary approaches to the identification of literary structures within Qur'anic surahs. Recent academic studies of the Qur'an have taken an increasing interest in the concept of the surah as a unity and with it the division of complete surahs into consecutive sections or parts. Part One presents a series of case studies focussing on individual Qur'anic surahs. Nevin Reda analyzes the

structure of S rat l Imr n Q 3 Holger Zellentin looks at competing structures within S rat al Ala Q 96 and A H Mathias Zahniser provides an exploration of the ring structures that open S rat Maryam Q 19 Part Two then focusses on three discrete aspects of the text Nora K Schmid assesses the changing structural function of oaths Marianna Klar evaluates how rhythm rhyme and morphological parallelisms combine in order to produce texture and cohesion while Salwa El Awa considers the structural impact of connectives and other discourse markers with specific reference to S rat h Q 20 The final section of the volume juxtaposes contrasting attitudes to the discernment of diachronic seams Devin Stewart examines surah medial oracular oaths Muhammad Abdel Haleem questions a range of instances where suggestions of disjointedness have historically been raised and Nicolai Sinai explores the presence of redactional layers within S rat al Nis Q 4 and S rat al M idah Q 5 Bringing a combination of different approaches to Qur an structure into a single book written by well established and emerging voices in Qur anic studies the work will be an invaluable resource to academics researching Islam religious studies and languages and literatures in general Chapters 3 and 6 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
