Understanding Victory and Defeat in Contemporary War Jan Angstrom, Isabelle Duyvesteyn, 2006-12-05 Bringing together leading contributors in the field this new volume analyzes how victory and defeat in modern war can be understood and explained It does so by confronting two inter related research problems the nature of victory and defeat in modern war and the explanations of victory and defeat By first questioning the extent to which the concepts of victory and defeat are meaningful to describe the outcomes of modern wars and whether the contents of these concepts are changing it then evaluates different theories purporting to explain the outcomes of war and the impact of variables ranging from technology to culture The book tackles several key questions What is the definition of victory in the War on Terror What is the meaning of victory and defeat in contemporary insurgencies such as those in Iraq and Afghanistan Are the counterstrategies that were developed in the mid twentieth century valid in order to deal with present and future conflicts With case studies ranging from the Malayan Emergency to the current conflict in Iraq Understanding Victory and Defeat in Contemporary War will be of great interest to students of war and conflict studies security studies military history and international relations

Modern War and the Utility of Force Isabelle Duyvesteyn, Jan Angstrom, 2010-04-05 This book investigates the use and utility of military force in modern war After the Cold War Western armed forces have increasingly been called upon to intervene in internal conflicts in the former Third World These forces have been called upon to carry out missions that they traditionally have not been trained and equipped for in environments that they often have not been prepared for A number of these new types of operations in allegedly new wars stand out such as peace enforcement state building counter insurgency humanitarian aid and not the least counter terrorism The success rate of these missions has however been mixed providing fuel for an increasingly loud debate on the utility of force in modern war This edited volume poses as its central question what is in fact the utility of force Is force useful for anything other than a complete conventional defeat of a regular opponent who is confronted in the open field This book will be of much interest to students of strategic studies war and conflict studies counter insurgency security studies and IR Isabelle Duyvesteyn is an Associate Professor at the Department of History of International Relations Utrecht University in the Netherlands Jan Angstrom is a researcher at the Swedish National Defence College

Contemporary Military Theory Jan Angstrom, J.J. Widen, 2014-07-17 The book aims to provide the reader with a state of the art introduction to classic and modern military theory The text accounts for the most important theories within the field by developing and analyzing these theories as well as problematizing both their normative and explanatory aims While focusing on military theory the book does not only reflect a single way of relating to knowledge of war and warfare but furthers learning by introducing contrasting perspectives as well as constantly criticizing the theories There is a clear need for an introductory text for the entire field of military theory that focuses whole heartedly on the theories not on their context or how they are expressed in practice during war This book covers such questions as how we should understand the

changing character of war the utility of force and how the pursuit of political ends is achieved through military means It draws upon and illustrates military thought through a wide ranging number of examples from the Napoleonic Wars to the current war in Afghanistan This book will be of great interest for students of military theory strategic studies security studies and defence studies **War By Agreement** Yitzhak Benbaji, Daniel Statman, 2019-10-03 War by Agreement presents a new theory on the ethics of war It shows that wars can be morally justified at both the ad bellum level the political decision to go to war and the in bello level its actual conduct by the military by accepting a contractarian account of the rules governing war According to this account the rules of war are anchored in a mutually beneficial and fair agreement between the relevant players the purpose of which is to promote peace and to reduce the horrors of war The book relies on the long social contract tradition and illustrates its fruitfulness in understanding and developing the morality and the law of war **American Book Publishing Record** ,2006 *The European Union and Strategy* Kjell Engelbrekt, Jan Hallenberg, 2008 This edited volume looks into the nature of the European Union as a strategic actor setting out to explore the paradox that the EU produces policies with strategic qualities but lacks the institutions and concepts to engage in strategic reasoning and action proper

The 2006 Lebanon Campaign and the Future of Warfare Stephen D. Biddle, Jeffrey A. Friedman, 2008 Hezbollah s conduct of its 2006 campaign in southern Lebanon has become an increasingly important case for the U S defense debate Some see the future of warfare as one of nonstate opponents employing irregular methods and advocate a sweeping transformation of the U S military to meet such threats Others point to the 2006 campaign as an example of a nonstate actor nevertheless waging a state like conventional war and argue that a more traditional U S military posture is needed to deal with such enemies in the future This monograph seeks to inform this debate by examining in detail Hezbollah s conduct of the 2006 campaign The authors use evidence collected from a series of 36 primary source interviews with Israeli participants in the fighting who were in a position to observe Hezbollah s actual behavior in the field in 2006 coupled with deductive inference from observable Hezbollah behavior in the field to findings for their larger strategic intent for the campaign *The Journal of Military History* ,2007 **Seminar on "Science, Technology, and Security", at Bhonsala Military College, Nashik (Maharashtra)** R. Upadhyaya, Sanjeev Bhadauria, 2003 *Merchants of African Conflict* Sabelo Gumedze, 2011 Despite their tarnished image private military and security companies PMSCs continue to feature in almost every African conflict Their presence in conflict zones presents a plethora of challenges as they generally remain unregulated and uncontrolled Initiatives aimed at addressing the involvement of PMSCs in conflict theatres have thus far also proved to be ineffective The engagement in vigorous multidisciplinary approaches aimed at championing and improving these initiatives remains critical in addressing the insecurities posed by these merchants of conflict particularly in Africa This monograph is intended to make a modest contribution to this complex yet interesting discourse through various authors presenting diverse and fascinating perspectives **Bibliographie Mensuelle** United Nations Library (Geneva, Switzerland), 2007 **Book Review Index -**
