Understanding Pain Understanding Pain:

Explain Pain 2nd Edn. David Sheridan Butler, G. Lorimer Moseley, 2013 Solid evidence now shows that knowing why we hurt will help us heal All pain is real and for many people it is a debilitating part of everyday life In a world where 1 in 5 of us experience ongoing pain and where there is increasing evidence for the failure of synthetic drugs take heart help is at hand It is now known that understanding more about why things hurt can actually help treat pain Recent advances in fields such as neurophysiology brain imaging immunology psychology and cellular biology have provided an explanatory platform from which to explore pain In everyday language accompanied by quirky illustrations Explain Pain Second Edition discusses how pain responses are produced by the brain how responses to injury from the autonomic motor and immune systems in your body contribute to pain and why pain can persist after tissues have had plenty of time to heal Co author Dr David Butler founder of the Neuro Orthopaedic Institute says that it is no longer acceptable that pain be just managed we must expect that it can be treated and sufferers can alter it themselves through education Explain Pain has sold around 60 000 copies world wide in 5 languages and continues to inspire clinical research and multidisciplinary pain treatment globally Explain Pain aims to give people in pain the power to challenge pain and to consider new models for viewing what happens to your body and brain during pain Once they have learnt about the processes involved they can follow a scientific route to recovery Why a second edition A decade of scientific research is a lot and we need to keep on top of it In the last 10 years there has been increasing support for therapeutic neuroscience education from clinical trials educational science neuroscience plain logic and the failure of drug therapy on chronic pain outcomes Lorimer and David have subtly changed some of the language so that the second edition can be delivered with much more authority than the first Noigroup Publications 2013 133 pages 90 illustrations and diagrams half canadian wire bound ISBN 978 0 9873426 6 9 Authors Dr David S Butler and Prof G Lorimer Moseley Understanding Pain - E-book Atul Kakar, Samiran Nundy, 2016-12-30 SECTION A Basic Facts About Pain Pain Receptors Types of Pain Acute and Chronic Pain Measuring Pain SECTION B Head and Neck Pain Migraine Tension Headache Trigeminal Neuralgia Eye Pain Dental Pain SECTION C Chest Pain Anginal Pain Noncardiac Chest Pain SECTION D Abdominal Pain Acute Abdominal Pain Abdominal Pain in Females Clear succinct but most sought after information on various aspects of pain Special emphasis on the general patient s concerns queries Covers recent advances related to pain
