Undoing Border Imperialism Anarchist Interventions:

Undoing Border Imperialism Harsha Walia, 2014-02-15 Harsha Walia has played a central role in building some of North America's most innovative, diverse, and effective new movements. That this brilliant organizer and theorist has found time to share her wisdom in this book is a tremendous gift to us all. Naomi Klein, author of *The Shock Doctrine*. *Undoing Border Imperialism* combines academic discourse, lived experiences of displacement, and movement-based practices into an exciting new book. By reformulating immigrant rights movements within a transnational analysis of capitalism, labor exploitation, settler colonialism, state building, and racialized empire, it provides the alternative conceptual frameworks of border imperialism and decolonization. Drawing on the author's experiences in *No One Is Illegal*, this work offers relevant insights for all social movement organizers on effective strategies to overcome the barriers and borders within movements in order to cultivate fierce, loving, and sustainable communities of resistance striving toward liberation. The author grounds the book in collective vision with short contributions from over twenty organizers and writers from across North America. Harsha Walia is a South Asian activist, writer, and popular educator rooted in emancipatory movements and communities for over a decade. Praise for *Undoing Border Imperialism*: Border imperialism is an apt conceptualization for capturing the politics of massive displacement due to capitalist neoglobalization. Within the wealthy countries, Canada's *No One Is Illegal* is one of the most effective organizations of migrants and allies. Walia is an outstanding organizer who has done a lot of thinking and can write not a common combination. Besides being brilliantly conceived and presented, this book is the first extended work on immigration that refuses to make First Nations sovereignty invisible. Roxanne Dunbar Ortiz, author of *Indians of the Americas* and *Blood on the Border*. Harsha Walia's *Undoing Border Imperialism* demonstrates that geography has certainly not ended, and nor has the urge for people to stretch out our arms across borders to create our communities. One of the most rewarding things about this book is its capaciousness, astute insights that emerge out of careful organizing linked to the voices of a generation of strugglers trying to find their own analysis to build their own movements to make this world our own. This is both a manual and a memoir, a guide to the world and a guide to the organizer's heart. Vijay Prashad, author of *The Darker Nations: A People's History of the Third World*. This book belongs in every wannabe revolutionary's war backpack. I addictively jumped all over its contents, a radical mixtape of ancestral wisdoms to present-day grounded organizers theorizing about their own experiences. A must for me is Walia's decision to infuse this volume's fight against border imperialism, white supremacy, and empire with the vulnerability of her own personal narrative. This book is a breath of fresh air and offers an urgently needed movement-based praxis. *Undoing Border Imperialism* is too hot to be sitting on bookshelves; it will help make the revolution. Ashanti Alston, Black Panther elder and former political prisoner. [Border Abolition Now](#) Sara Riva, Simon Campbell, Brian Whitener, Kathryn Medien, 2024-07-20 Outstanding. A rich, hopeful, and indispensable guide that shows us how the world could be borderless, flourishing, free. Luke de Noronha, co-author *Against Borders: The Case For Abolition*.

Unsettling Gilberto Rosas, 2023-03-28 Analyzes how border and immigration enforcement culminated in a mass shooting in El Paso Texas Honorable Mention for the American Ethnological Society Senior Book Prize On August 3 2019 a far right extremist committed a deadly mass shooting at a major shopping center in El Paso Texas a city on the border of the United States and Mexico In Unsettling Gilberto Rosas situates this devastating shooting as the latest unsettling consequence of our border crisis and currents of deeply rooted white nationalism embedded in the United States Tracing strict immigration policies and inhumane border treatment from the Clinton era through Democratic and Republican administrations alike Rosas shows how the rhetoric around these policies helped lead to the Trump administration's brutal crackdown on migration and the massacre in El Paso Rosas draws on poignant stories and compelling testimonies from workers in immigrant justice organizations federal public defenders immigration attorneys and human rights activists to document the cruelties and indignities inflicted on border crossers Borders as sites of crossings and spaces long inhabited by marginalized populations generate deep anxiety across much of the contemporary world Rosas demonstrates how the Trump administration amplified and weaponized immigration and border policy including family separation torture and murder None of this dehumanization and violence was inevitable however The border zone in El Paso which translates to the Pass was once a very different place one marked by frequent and inconsequential crossings to and from both sides and with more humane immigration policies it could become that once again

Against Borders Alex Sager, 2020-01-13 This book provides a philosophical defence of open borders Two policy dogmas are the right of sovereign states to restrict immigration and the infeasibility of opening borders These dogmas persist in face of the human suffering caused by border controls and in spite of a global economy where the mobility of goods and capital is combined with severe restrictions on the movement of most of

the world's poor Alex Sager argues that immigration restrictions violate human rights and sustain unjust global inequalities and that we should reject these dogmas that deprive hundreds of millions of people of opportunities solely because of their place of birth Opening borders would promote human freedom foster economic prosperity and mitigate global inequalities Sager contends that studies of migration from economics history political science and other disciplines reveal that open borders are a feasible goal for political action and that citizens around the world have a moral obligation to work toward open borders

The Permanence of Anti-Roma Racism Margareta Matache, 2025-12-29 Anti Roma racism one of Europe's oldest and most enduring racisms has been neglected in mainstream theories and discourse This book situates anti Roma racism within national and intra continental histories and global scholarship exploring its specific and universal underpinnings and manifestations and its interconnectedness with other systems of oppression The Permanence of Anti Roma Racism offers a theoretical perspective on the roots of anti Roma racism tracing its genesis in the system of racialized slavery in the principalities of Moldavia and Wallachia and the politics of killings expulsions and entry bans across Europe in the late Middle Ages Furthermore employing theoretical frameworks of structural oppressions anti colonial and decolonial thought racialization and intersectionality this book analyzes how deep historical legacies continue to shape anti Roma racism as an enduring structural form of oppression This scholarly work is essential for policymakers practitioners scholars and students working on the sociology of racialization global race and structural racisms and European history It defines categorizes and unpacks the processes and mechanisms of racialization and anti Roma racism shedding light on a system of oppression too often left unspoken

Viapolitics William Walters, Charles Heller, Lorenzo Pezzani, 2021-11-15 Vehicles their infrastructures and the environments they traverse are fundamental to the movement of migrants and states attempts to govern them This volume's contributors use the concept of viapolitics to name and foreground this contested entanglement and examine the politics of migration and bordering across a range of sites They show how these elements constitute a key site of knowledge and struggle in migratory processes and offer a privileged vantage point from which to interrogate practices of mobility and systems of control in their deeper histories and wider geographic connections This transdisciplinary group of scholars explores a set of empirically rich and diverse cases from the Spanish and European authorities attempts to control migrants entire trajectories to infrastructures of escort of Indonesian labor migrants from deportation train cars in the 1920s United States to contemporary stowaways at sea from illegalized migrants walking across treacherous Alpine mountain passes to aerial geographies of deportation Throughout Viapolitics interrogates anew the phenomenon called migration questioning how different forms of contentious mobility are experienced policed and contested Contributors Ethan Blue Maribel Casas Cortes Julie Y Chu Sebastian Cobarrubias Glenda Garelli Charles Heller Sabine Hess Bernd Kasperek Clara Lecadet Johan Lindquist Renisa Mawani Lorenzo Pezzani Ranabir Samaddar Amaha Senu Martina Tazzioli William Walters
