Uneasy Neighbors Overtures To Biblical Theology:

Uneasy Neighbors Walter E. Pilgrim, What does the New Testament have to say about the attitude of Christians and the church toward those who exercise political authority Few topics have caused more controversy in the history of the church than the relationship between church and state from the first century to the present Pilgrim offers an analysis of the various attitudes of New Testament writers on this difficult subject ranging from submission to overt resistance by the church The volume also excursus on Church and State in Luke Acts and a concluding chapter on hermeneutics **Theological**

Perspectives on a Surveillance Society Eric Stoddart, 2016-02-17 This book looks at contemporary surveillance practices and ideologies from a Christian theological perspective Surveillance studies is an emerging inter disciplinary field that brings together scholars from sociology criminology political studies computing and information studies cultural studies and other disciplines Although surveillance has been a feature of all societies since humans first co operated to watch over one another whilst hunting and gathering it is the convergence of information technologies within both commerce and the state that has ushered in a surveillance society There has been little if any theological consideration of this important dimension of social organisation this book fills the gap and offers a contribution to surveillance studies from a theological perspective broadening the horizon against which surveillance might be interpreted and evaluated This book is also an exercise in consciousness raising with respect to the Christian community in order that they may critically engage with a surveillance society by drawing on biblical and theological resources Being the first major theological treatment in the field it sets the agenda for more detailed considerations **From Synagogue to Ecclesia** Charles E. Carlston, Craig A. Evans, 2014-09-11 Charles E

Carlston and Craig A Evans show how the Evangelist took over a variety of traditions from Judaism and early Christianity and worked them into a theological portrait that would be accessible to both Jews and Gentiles as they became followers of Jesus Back cover Paul's Letter to the Romans Arland J. Hultgren, 2011-05-16 Building on his own translation from the Greek Hultgren walks readers through Romans verse by verse illuminating the text with helpful comments probing into major puzzles and highlighting the letter's most inspiring features He also demonstrates the forward looking missional character of Paul's epistle written as Hultgren suggests to introduce Roman Christians to the major themes of Paul's theology and to inspire in them both confidence in the soundness of his teaching and support for his planned missionary efforts in Spain

Matthew and Empire Warren Carter, 2001-10-01 In *Matthew and Empire* Warren Carter argues that Matthew's Gospel protests Roman imperialism by asserting that God's purposes and will are performed not by the empire and emperor but by Jesus and his community of disciples Carter makes the claim for reading Matthew this way against the almost exclusive emphasis on the relationship with the synagogue that has long characterized Matthean scholarship He established Matthew's imperial context by examining Roman imperial ideology and material presence in Anitoch the traditional provenance for Matthew Carter argues that Matthean Christology which presents Jesus as God's agent is shaped by claims and protests

against those claims that the emperor and the empire are God's agents. He pays particular attention to the Gospel's central irony, namely that in depicting God's ways and purposes the Gospel employs the very imperial framework that it resists. Matthew and Empire challenges traditional readings of Matthew and encourages fresh perspectives in Matthean scholarship.

Peter Travis B. Williams, 2014-10-08. Drawing on recent insights from postcolonial theory and social psychology, Travis B. Williams seeks to diagnose the social strategy of good works in 1 Peter by examining how the persistent admonition to do good is intended to be an appropriate response to social conflict. Challenging the modern consensus which interprets the epistle's good works language as an attempt to accommodate Greco-Roman society and thereby to lessen social hostility, the author demonstrates that the exhortation to do good envisages a pattern of conduct which stands opposed to popular values. The Petrine author appropriates terminology that was commonly associated with wealth and social privilege and reinscribes it with a new meaning in order to provide his marginalized readers with an alternative vision of reality, one in which the honor and approval so valued in society is finally available to them. The good works theme thus articulates a competing discourse which challenges dominant social structures and the hegemonic ideology which underlies them. They Went Out from Us

Daniel R. Streett, 2011-01-27. By means of careful historical work and exegesis, Streett argues that the secession mentioned in 1 John did not have to do with a later complex Christological issue such as docetism, Cerinthianism, or a devaluation of the historical life, death of Jesus, but rather concerned the foundational belief in the Messiahship of Jesus, a tenet the secessionists had renounced in order to return to the Jewish synagogue. He critiques the common maximalistic mirror-reading approach to the letter as misguided and contends that the letter is primarily pastoral, meant to comfort and reassure the community rather than to argue against the secessionists. Streett's main contributions are his detailed examination of the ancient historical evidence, especially the Patristic evidence for the Johannine opponents, and his in-depth and innovative exegesis of the key opponent passages: 1 Jn 2:18-27; 4:1-6; 5:6-12; 2 Jn 4:11.

Pauline Solidarity Daniel Oudshoorn, 2020-04-30. Building on the themes established in the first two volumes of *Paul and the Uprising of the Dead*, *Pauline Solidarity* explores how the Pauline faction transforms relationships within the household unit in the new transnational family of God; b) how dominant cultural conceptions of honor are rejected in the embrace of shame in the company of the crucified; c) how vertical practices of patronage are replaced with a horizontal sibling-based political economy of grace; and d) how the gospel of the Caesars is overcome by the lawlessness of the good news that is being assembled in an uprising of life among the left-for-dead. Along the way, many of the traditional themes associated with Paulinism—grace, justice, love, loyalty, sin, flesh, death, Jesus, spirit, life—are reexamined and understood as core components of a movement that was spreading among vanquished, colonized, oppressed, dispossessed, and enslaved peoples who were finding new and treasonous ways of organizing themselves in order to be life-giving and life-affirming and in order to counter all the death-dealing.

structures of Roman imperialism **The Trial Narratives** Matthew L. Skinner, 2010-01-01 In this careful analysis Matthew Skinner explores the trial narratives of Jesus Paul Stephen and others in the Gospels and Acts who found themselves brought before powerful individuals and groups often with deadly consequences His close study of these texts is essential for those interested in the early church's relationship to the sociopolitical structures in which Christian belief emerged He shows how the narratives helped shape early Christian identity as these communities sought to understand both the political implications of the emerging Christian gospel as well as the dangers and opportunities their sociopolitical context presented He also reflects on the theological resources and paradigms these texts offer to Christians today Revelation John R. Yeatts, 2003-03-25 The message of Revelation speaks to Christians for all times and historically has especially encouraged persecuted groups Today Christians in many parts of the world are also at opposition to the worldview of the time Revelation gives strength to those who are oppressed and John R Yeatts commentary attends to themes of martyrdom suffering service in the world hope the triumph of Christ and the role of the church in bearing witness to the triumphant Christ The commentary includes clear biblical commentary relationships between various portions of Scripture and applications drawn from the Anabaptist tradition and the larger Christian community *A Biblical Theology of Exile* Daniel L. Smith-Christopher, The Christian church continues to seek ethical and spiritual models from the period of Israel's monarchy and has avoided the gravity of the Babylonian exile Against this tradition the author argues that the period of focus for the canonical construction of biblical thought is precisely the exile Here the voices of dissent arose and articulated words of truth in the context of failed power *Pauline Politics* Daniel Oudshoorn, 2020-03-10 The Pauline Epistles have been claimed as a useful ally by parties across the political spectrum Neoconservatives claim that Paul and his coworkers were law abiding authority honoring devoutly religious people oriented around their respect for hard work private property and family values Liberals claim that the Pauline faction was devoted to the celebration of diversity internally transcending social markers of status and the embrace of peace Radicals claim that Paul was a leader within an anti imperial revolutionary movement sweeping across the eastern portion of the Roman Empire However it is rare for these and still other parties to engage in dialogue with each other because each party tends to operate with presuppositions that make open engagement difficult *Pauline Politics* examines the main positions taken in relation to Paul and politics and then engages in a thorough examination of the underlying arguments used to argue that this or that position is more or less plausible Underlying arguments tend to relate to two things first positions on the socioeconomic status of Paul his coworkers and other early Jesus loyalists and second positions on Pauline eschatology This volume will comprehensively explore these matters

Reconstructing Old Testament Theology Walter Brueggemann, 2005-06-15 In this informative and keen look at contemporary trends in Old Testament theology Perdue builds on his earlier volume *The Collapse of History* 1994 He investigates how a variety of perspectives and methodologies have impacted how the Old Testament is read in the twenty

first century including literary criticism rhetorical criticism feminist womanist and mujerista theologies liberation theology Jewish theology postmodernism and postcolonialism Perdue provides a sensitive reading of the aims of these approaches as well as providing critique and setting them in their various cultural contexts In his conclusion the author provides a look at the future and how these various voices and approaches will continue to impact how we carry out Old Testament theology

A Message from the Great King R. Michael Fox, 2015-11-16 The academy has not been kind to Malachi Indeed some of the most influential and seminal studies on the book denigrate its style message and overall artistry This negative assessment proves extensive in the history of scholarship Furthermore the studies demonstrating a more positive assessment of Malachi do so without offering serious challenges to these long standing denigrations Complicating the matter is the observation that critical study has proffered numerous suggestions for what Malachi contains while failing to provide a viable model of what Malachi actually is *A Message from the Great King* presents serious challenges to the guild's prior assessments and conclusions about the book Through an interdisciplinary approach that synthesizes insights from literary theory thorough historical reconstruction and a close reading of the biblical text R Michael Fox makes a formidable case that a root messenger metaphor pervades the entire text of Malachi Viewed and read through this new lens Malachi's artistry becomes more readily apparent and its theological message more intense and demanding *A Message from the Great King* provides serious reassessment of the academy's long standing denigrations of the book and a compelling answer to what Malachi actually is Accompanying these insights into Malachi are new methodological procedures and exercises that merit further attention and reflection

The Torah's Vision of Worship Samuel E. Balentine, 1999-07-30 A complement to the author's earlier *Overtures to Biblical Theology* study on prayer this volume addresses the topic of worship as articulated in the first five books of the Bible Rather than a history of Israelite religion Balentine's volume examines the vision of worship expounded in the Torah in relation to priesthood creation liturgy and covenant He concludes by discussing the contemporary situation of experiencing God's hiddenness and a world caught in despair Balentine proposes that a fresh look at the Torah offers possibilities of counter imagination and hope

Folia orientalia, 2013 *Journal of Early Christian Studies*, 1999 Focus is on the study of Christianity in the context of late ancient societies and religions from C E 100-700 *Heythrop Journal*, 2000 A select book list appears quarterly *Prayer and the New Testament* Robert J. Karris, 2000 A theologically provocative and spiritually fulfilling introduction to the latest scholarship on prayer and The New Testament *AAR/SBL Annual Meeting Program* American Academy of Religion. Meeting, 1999
