Unfinished Agenda Lesslie Newbigin, 1985 **Lesslie Newbigin** Lesslie Newbigin, 1993 Becoming a Missionary Church Michael W. Goheen, Timothy M. Sheridan, 2022-07-19 This book offers a historical assessment and balanced critique of contemporary church movements especially in light of missional ecclesiology An expert on Lesslie Newbigin and an expert on contemporary church models show how Newbigin's ideas have been developed and contextualized in three popular contemporary church movements missional emergent and center church In addition the authors explain that some of Newbigin's insights have been neglected and need to be retrieved for the present day This book calls for the recovery of the missionary nature of the church and commends church practices applicable to any congregation African Instituted Churches Rufus Okikiolaolu Olubiyi Ositelu, 2002 One of the striking features of the changed demography of world Christianity has been the emergence and growth of the African Instituted Churches AICs This book is therefore provided for those who desire to study the African initiatives in Christianity The book is intended to serve as a valuable material to teachers and students of African Instituted Churches The customs culture and traditions of the African or any other peoples of the world are to serve as beautiful compliments to the Christian faith and belief and not diametrically opposed to it

From Crisis to Creation Mark T. B. Laing, 2012-09-05 Lesslie Newbigin 1909 1998 was one of the seminal theologians of mission in the twentieth century and perhaps the most important in the English speaking world His thinking was anchored in the practice of mission he was a missionary in India a bishop of the Indian church and a leader in emerging international mission structures In his late years he pioneered research on how the gospel could engage with Western culture For many he is the founding father of the missional church movement This book is the first to address the crucial role Newbigin played in shaping ecumenical thinking on mission during the twentieth century filling an important gap in our knowledge of the development of twentieth century missional theology It does so by seeking to answer a central question in Newbigin's thinking How does mission relate to church Taking the integration of the International Missionary Council with the World Council of Churches as its central focus this book provides a unique history of crucial events in the ecumenical movement But more importantly through a study of Newbigin's role in the theological debate this book demonstrates how missional theology evolved during the postwar period when there was a sea change in understandings both of mission and church

The Mission of the Triune God Adam Dodds, 2017-07-31 Lesslie Newbigin was arguably the greatest missionary thinker of the twentieth century After a successful missionary career in south India Newbigin pioneered missionary engagement with the secular West and resurgent Islam He also led the way in arguing that the Church's mission can only be understood in light of the doctrine of the Trinity Over fifty years ago Newbigin called for the further development of missionary thinking grounded in the Triune being of God This work is in response to that call Adam Dodds provides the first in depth study of Newbigin's trinitarian theology of mission Dodds constructs a systematic account of the central features of

the mission of the Triune God the Triune being of God the mission of the Son the mission of the Holy Spirit and the mission of the church This book contributes to our understanding of the work of Lesslie Newbigin offers a systematic theological account of the mission of the Triune God and contributes to the retrieval of Christian mission from the theological margins back to a place of central importance to Christian theology **Theology in Missionary Perspective** Mark T. B. Laing, Paul Weston, 2012-10-24 Lesslie Newbigin was one of the most significant missionary strategists and theologians of the twentieth century With the breakdown of confidence in some of the central philosophical and theological paradigms that have been shaped and sustained by the culture of modernity Newbigin's approach to a genuinely missionary theology offers fresh insights and approaches providing something of a prophetic model for the global Christian community in new and challenging times In this collection of essays scholars and practitioners from around the world engage with aspects of Newbigin's continuing legacy They explore Newbigin's approach to theological method his theological and philosophical account of Western culture in the light of the gospel and some of the implications of his thought for global mission in the third millennium This collection is essential reading not just for Newbigin enthusiasts but also for all who are concerned to develop a genuinely missionary encounter with contemporary culture Contributors Ian Barns John G Flett Michael W Goheen Kenneth D Gordon Eleanor Jackson Veli Matti Karkkainen David J Kettle J Andrew Kirk Mark Laing Murray Rae Jurgen Schuster Wilbert Shenk Jenny Taylor Geoffrey Wainwright Ng Kam Weng and Paul Weston *The Missionary Movement from the West* Andrew F. Walls, 2023-10-26 The Gospel Coalition Book Award in Missions the Global Church 2023 The long awaited work of a pioneer of missiology and global Christianity The history of the missions is complex and fraught Though modern missions began with European colonialism the outcome was a largely non Western global Christianity Highly esteemed scholar Andrew Walls explores every facet of the movement including its history theory and future Walls locates the birth of the Protestant missionary movement in the West with the Puritans and Pietists and their efforts to convert the Native Americans they displaced Tracing the movement into the twentieth century Walls shows how colonialism and missionary work turned out to be essentially incompatible Missionaries must live on another culture's terms and their goal the establishment of churches of every nation depends on accepting new indigenous Christians as equals Now that Christianity has become primarily an African Latin American and Asian religion rather than a European one the dynamics of the church's mission have transformed Sensitive to this shift Walls indicates new areas of listening to and learning from this new center of Christianity and speculates on the theological contributions from a truly global church Throughout his long and fruitful career Walls told the story of missions as a dedicated Christian scholar teacher and mentor Prior to his passing in 2021 he entrusted the editing of his lectures to his friends and students The result of this labor of love **The Missionary Movement from the West** is a must read for scholars of missiology world Christianity and church history **The Distinctive Identity of the Church** Jeppe Bach Nikolajsen, 2015-03-20 An increasing number of theologians believe that the Western

world has moved from an era of Christendom to an era of post Christendom This book goes to the heart of the debate related to this shift asking How are we to understand the distinctive identity of the church with special reference to its role in a post Christendom society It then presents an analysis of the work of the English Reformed theologian Lesslie Newbigin and the American Mennonite theologian John Howard Yoder both of whom reflect on how we should understand this important question At the end of *The Distinctive Identity of the Church* the charge of sectarianism is discussed It is argued that a missionary God sends the church to the world and consequently this sending should fundamentally determine its existence in the world The book argues that the task that lies before the church in the Western world is not to bypass its distinctiveness with accusations of sectarianism but to recapitulate an understanding of its own distinctiveness that should be seen as a precondition for its engagement in society Such an ecclesiological position holds important potential for an understanding of the role of the church in pluralistic Western cultures
