The Tree Experts Mark Johnston,2021-08-02 Trees are now in the public eye as never before The threat of tree diseases the felling of street trees and the challenge of climate change are just some of the

issues that have put trees in the media spotlight At the same time the trees in our parks gardens and streets are a vital resource that can deliver environmental social and economic benefits that make our towns and cities attractive green and healthy places Ever since Roman times when amenity trees were first planted in Britain caring for those trees has required specialist skills This is mainly because of the challenges of successfully integrating large trees into the urban environment and the risks involved in working with them often at height and in close proximity to people buildings and roads But who are the people with the specialist expertise to care for our amenity trees While professionals such as horticulturists landscape architects conservationists and foresters have a role to play it is the arboriculturists who are the tree experts For centuries arboriculture was often synonymous with forestry or considered an aspect of horticulture until it emerged in the nineteenth century as a separate discipline There are now some 22 000 people employed in Britain s arboricultural industry including practical tree surgeons and arborists local authority tree officers and arboricultural consultants This is the first book to trace the history of Britain s professional tree experts from the Roman arborator to the modern chartered arboriculturist It also discusses the influences from continental Europe and North America that have helped to shape British arboriculture over the centuries The Tree Experts will have particular appeal to those interested in the natural and built environment heritage landscapes social history and the history of gardening

Sporting with the Classics Estelle Haan,2010-01-01 Focuses on the original Latin poetry of William Dillingham a 17th cent editor and Vice Chancellor of Cambridge Univ It does so in an attempt to disprove claims that Dillingham s talent lay in criticism rather than in original composition and that his Latin verse shows his complete independence of the old school of classical imitation This study highlights both the classical and the contemporary intertexts with which this hitherto neglected poetry engages This highly talented verse sports with the classics in several ways first in its self consciously interaction with the Latin poets Virgil and Ovid second in its appropriation of a classical world and its linguistic medium to describe such 17th cent sports or pastimes as bowling horticulture and bell ringing

Rescuing Eden ,2015-10-06 From simple 18th and early 19th century gardens to the lavish estates of the Gilded Age the gardens started by 1930s inmates at Alcatraz in San Francisco Bay to the centuries old camellias at Middleton Place near Charleston South Carolina Rescuing Eden celebrates the history of garden design in the United States with 28 examples that have been saved by ardent conservationists and generous private owners and opened to the public The United States has a rich tradition of landscape design with gardens on a scale that rivaled the great gardens of Europe but in the absence of specific institutions dedicated to their preservation many of these ephemeral collaborations between man and nature were lost during the wars economic depressions and social upheavals that swept the country in the mid 20th century or to creeping development and urban sprawl The surviving gardens presented here were selected for the drama of their original creation and rescue and for their historical and horticultural importance Ranging from wonderful to woebegone each has its own character and each has been brought back from the brink through a combination of imagination and tenacity Discover
