 Children and adults spend a great deal of time in activities we think of as play including games sports and hobbies Without
 thinking about it very deeply almost everyone would agree that such activities are fun relaxing and entertaining However
 play has many purposes that run much deeper than simple entertainment For children play has various functions such as
 competition following rules accepting defeat choosing leaders exercising leadership practicing adult roles and taking risks in
 order to reap rewards For adults many games and sports serve as harmless releases of feelings of aggression competition
 and intergroup hostility The Encyclopedia of Play in Today s Society explores the concept of play in history and modern
 society in the United States and internationally Its scope encompasses leisure and recreational activities of children and
 adults throughout the ages from dice games in the Roman Empire to video games today With more than 450 entries these
 two volumes do not include coverage of professional sports and sport teams but instead cover the hundreds of games played
