Tort Law The American And Louisiana Perspectives Second Edition 201:

Tort Law John M. Church, 2008 The primary objective of this work is a study of tort law in the United States and Louisiana It differs from most other torts casebooks however in that it has a secondary objective of providing an exercise in comparative law In the United States we often overlook the fact that the common law system that prevails in our nation is not the only legal system in the world Much of the world applies a civil law approach in which a civil code has a more prominent role than case law In a world in which trade and economics politics and law cross national borders it has become increasingly important to be aware of and conversant in other nations legal systems Louisiana the only state in the United States that can be described as a mixed jurisdiction using both civil law and common law provides an excellent model for examining and comparing and contrasting civil law and common law approaches to various legal issues This book invites the reader to both study tort law and consider the differences and similarities between the common law states and a state that has a civil code and views the role of the courts and the legislature somewhat differently

Despite their clarity and sophistication most judicial process texts currently available have two significant limitations First they understate the effects of legal factors such as stare decisis on judicial decision making and second they fail to convey the human emotions involved in litigation Reflecting the author s experience as a political scientist law student judicial clerk practicing attorney and law professor May It Please the Court Judicial Processes and Politics in America Second Edition redresses this imbalance by giving well deserved attention to legal influences on judicial decisions and to the human drama of litigation Each chapter reflects the book s premise that the judicial process operates at the intersection of law and politics and this theme guides the discussions The coverage in the book is far reaching exploring numerous topics including the structure of federal and state courts the selection and removal of judges and the legal profession s history and culture It discusses two hypothetical cases outlining their trial and appellate proceedings It also presents an engaging debate about the legitimacy and the utility of judicial policy making New to this edition Expanded appendices including a discussion of computerized legal research New illustrative cases documents and web references All chapters updated to reflect changes since the first publication in 2001 The final chapter summarizes the theme of the book noting that courts not only enforce norms and resolve disputes but also as a coequal branch of government shape the fundamental power relationships that drive American politics The chapter ends by observing that the judicial process offers a window on the entire American political system This book clarifies the view from that window

Problèmes de Conflits de Lois en Matière de Filiation Jacques Foyer Jacques Foyer Professor at the University of Paris II notes in introduction of his course that it can be enlightening to compare the different modern methods of solution of the conflict of laws regarding filiation The study of the different systems shows that there exist at least three methods to contradict the classic choice of law rule The course is structured around the analysis of these three methods Firstly it is the criticism of the rigid character and the unpredictability of the traditional rule that triggers the temptation of a manipulation of the choice of law rule The author then points out that one could question its abstract and arbitrary character which leads on the one hand to an attempt to hierarchization and on the other hand to a diversification of the choice of law rules Lastly it is the principle of the foreign law s purpose to govern legal relationships in the same way as the lex fori that is questioned which leads to its partial elimination to the profit of a more or less systematic application of the territorial law or of the one of the court hearing the action
