Taboo publishing a critique of the work in 1920 Some authors have seen redeeming value in the work Freud who had a longstanding interest in social anthropology and was devoted to the study of archaeology and prehistory wrote that the work of Wilhelm Wundt and Carl Jung provided him with his first stimulus to write the essays included in Totem and Taboo The work was translated twice into English first by Abraham Brill and later by James Strachey Freud was influenced by the work of James George Frazer including The Golden Bough 1890 The Horror of Incest concerns incest taboos adopted by societies believing in totemism Freud examines the system of Totemism among the Australian Aborigines Every clan has a totem usually an animal sometimes a plant or force of nature and people are not allowed to marry those with the same totem as themselves Freud examines this practice as preventing against incest The totem is passed down hereditarily either through the father or the mother The relationship of father is also not just his father but every man in the clan that hypothetically could have been his father He relates this to the idea of young children calling all of their parents friends as aunts and uncles There are also further marriage classes sometimes as many as eight that group the totems together and therefore limit a man's choice of partners

Totem and Taboo Sigmund Freud, 2015-11-16 PRIMITIVE man is known to us by the stages of development through which he has passed that is through the inanimate monuments and implements which he has left behind for us through our knowledge of his art his religion and his attitude towards life which we have received either directly or through the medium of legends myths and fairy tales and through the remnants of his ways of thinking that survive in our own manners and customs Moreover in a certain sense he is still our contemporary there are people whom we still consider more closely related to primitive man than to ourselves in whom we therefore recognize the direct descendants and representatives of earlier man We can thus judge the so-called savage and semi-savage races their psychic life assumes a peculiar interest for us for we can recognize in their psychic life a well-preserved early stage of our own development If this assumption is correct a comparison of the Psychology of Primitive Races as taught by folklore with the psychology of the neurotic as it has become known through psychoanalysis will reveal numerous points of correspondence and throw new light on subjects that are more or less familiar to us For outer as well as for inner reasons I am choosing for this comparison those tribes which have been described by ethnographers as being most backward and wretched the aborigines of the youngest continent namely Australia whose fauna has also been preserved for us so much that is archaic and no longer to be found elsewhere

Totem and Taboo Sigmund Freud, James Strachey, 2001

Widely acknowledged to be one of Freud's greatest works when first published in 1913 this book caused outrage. It remains the fullest exploration of Freud's most famous themes: Family, society, religion, they're all put on the couch. **Totem and taboo** Sigmund Freud, 1942 **Tótem y Tabú** Sigmund Freud, 2021-05-27. En Tótem y tabú escrito en 1912 Sigmund Freud 1856-1939 se propuso explicar los orígenes de nuestra especie mediante interpretaciones psicoanalíticas proyectadas sobre la antropología. El horror al incesto, la ambivalencia de los sentimientos respecto al tabú, las funciones desempeñadas por el animismo y la magia, el totemismo y sus estrechas relaciones con la exogamia son otras tantas consecuencias del drama edípico primigenio: esto es, del parricidio en la horda primitiva, base de la religión, la moralidad y las instituciones de la vida civilizada.
