Tourism Environment And Ecology In The Mediterranean Region:

Tourism, Environment and Ecology in the Mediterranean Region Recep Efe, Munir Ozturk, 2014-09-26 As humans we have stewardship over the environment Man's dominion does not mean a license to abuse spoil squander or destroy Future cultures will be able to reach their potential only if this generation remembers that sustainable land use is a combination of economics ecology and social justice Our ancestors survived due to an innate sense of oneness whereby they helped each other For them everything was holy Sustaining desired ecological economic and social conditions in the system is a big challenge but not an impossible task This book presents chapters by scientists from different disciplines from the Mediterranean Basin and its environs It presents updated information and highlights the way forward for the fields of economy environment and ecology making this book a very useful source for people working in these different disciplines Contributions have been prepared by experts in these respective fields The book also brings to the fore important future tasks for these particular disciplines and provides up to date references tables and figures illustrating research findings As such this volume is a must read for students researchers and professionals in environmental sciences ecology forestry geography and other related fields

Environment and Ecology in the Mediterranean Region Recep Efe, Shahina Ghazanfar, Munir Ozturk, 2012-03-15 The Mediterranean Basin with its mountainous shores high biodiversity and spectacular scenery is located at the intersection of Africa and Eurasia Through the 8000 years of human development in this area there have been tremendous changes in its history and biogeography Approximately 300 million people live here today Although the evergreen maquis vineyards olive plantations and natural woodlands cover the lands all over the basin it is facing severe destruction of habitats due to deforestation intensive grazing fires and in particular a severe coastal degradation due to infrastructure development which is changing the landscape Both the historical heritage and geography of the land is facing a great threat due to urbanisation and fragmentation Time has come for its inhabitants to weigh their impact on its ecogeography in order to save the biodiversity as well as the history of the basin This book synthesises the knowledge from different disciplines so as to increase awareness among the humans in the basin

Environment and Ecology in the Mediterranean Region II Recep Efe, 2014-03-17 The environment in ecological systems includes both physical parameters and biotic attributes and is a holocoenotic dynamically interlinked system Its investigation requires a dialectical approach which examines the different parts but integrates the organism and the environment into a dynamic whole Environment and ecology place emphasis on the real world Many decisions that directly or indirectly affect the balance of our environment are based on individual community state national and international decisions Given that ecological systems now also involve the economy ecology and its relationship with the environment are taking on an increasingly important role in today's world This book includes 32 chapters dealing with the different aspects cited above It discusses transhumance activities social changes in new life environments dendrohistorical studies recreation and tourism based on natural resources physical and social

geographical studies on the riparian borders threats and environmental interactions in mountain forest ecosystems the evolution of the traditional agricultural landscapes the landscapes of Sierra Nevada cork oak forests and climate change the causes of flooding water scarcity and adaptation in agriculture nutrient pollution in rivers ethnobotanical studies and phenological observations of young beech stands The topics discussed in this book will attract the attention of students and researchers from different disciplines and will prove fruitful for all scholars working under the umbrella of environment and ecology studies

Climate Change Impacts on High-Altitude Ecosystems Münir Öztürk, Khalid Rehman Hakeem, I. Faridah-Hanum, Recep Efe, 2015-05-05 This book covers studies on the systematics of plant taxa and will include general vegetational aspects and ecological characteristics of plant life at altitudes above 1000 m from different parts of the world This volume also addresses how upcoming climate change scenarios will impact high altitude plant life It presents case studies from the most important mountainous areas like the Himalayas Caucasus and South America covering the countries like Malaysia Sri Lanka India Nepal Pakistan Kirghizia Georgia Russia Turkey Indonesia Malaysia and the Americas The book will serve as an invaluable resource source undergraduates graduate students and researchers
