TOWARD A GLOBAL CIVIL SOCIETY

EDITED BY
MICHAEL WALZER

Toward A Global Civil Society International Political Currents

Michael Walzer

Toward A Global Civil Society International Political Currents:

Toward a Global Civil Society Michael Walzer, 1995 Comprises 26 essays dealing with civil society and social justice in the context of the internationalization of economies and politics Considers civil society a key to democratic stability and a counterweight to totalitarianism and authoritarian government Questions the role of the nation State and looks at the possibility of a renewal of democratic socialism Paradoxes of Civil Society Frank Trentmann, 2000-01-01 Civil Society has been experiencing a global renaissance among social movements and political thinkers during the last two decades This collection of original papers by junior and senior scholars offers an important comparative historical dimension to the debate by examining the historical roots of civil society in Germany and Britain from the seventeenth century revolutions to the beginning of the welfare state **Towards a Global Civil Society** Michael Walzer, 1995 **Towards a Global Polity** Richard Higgott, Morten Ougaard, 2002-06-27 The role of law networks and civil society are examined and key theoretical and meta theoretical questions on how to analyse and theorise the global polity what drives it forward and whether it can be democratised are discussed The Spirit of the Berlin Republic Dieter Dettke, 2003 The Berlin Republic has become the key concept of post Cold War Germany and as such has been widely discussed inside as well as outside Germany Symbolized by the move of the government from Bonn to Berlin it signals all the tangible and intangible changes in Germany's position in the world that have taken place during the 1990s Well known German authors decision makers and cultural leaders as well as internationally renowned experts on German affairs contribute to this volume examining various aspects of the New Germany and its old new capital such as history foreign policy art architecture and culture In this way the reader gains a varied but comprehensive picture of Germany after unification as perceived by its neighbors friends and allies

Constructing Ethical Patterns in Times of Globalization Aleksi Kuokkanen, 2012-01-20 Inspired by the Catholic theologian Hans K ng this book searches for a model for global ethics by analysing the contemporary philosophical discussion It demonstrates that the Western model is unable to reckon with exclusivism and difference and presents an alternative model The Routledge Handbook of Politics and Religion in Contemporary America Jeffrey Haynes, 2024-12-19 The Routledge Handbook of Politics and Religion in Contemporary America is a comprehensive reference source to this significant controversial and consistent topic in America's politics It examines the copious research conducted to date evaluates what we know identifies what is less clear because of differing research findings and pursues important but under researched questions Comprising 34 chapters by a team of international contributors the Handbook is divided into four parts History and context Theoretical debates and methodological perspectives Actors policies and institutions and Contemporary debates and controversies The Handbook addresses three key questions 1 How is religion politically important in the USA 2 Why does religion retain political and social prominence in the USA and 3 Is the USA secularising If so what does it mean for the relationship between religion and politics Chapters explore central issues debates and problems within politics and

religion in the USA including citizenship secularism the law religious diversity atheism political economy religious minorities discrimination the US presidency nationalism public opinion gender and sexuality foreign policy Congress religious freedom party politics human rights public institutions civil society populism feminism LGBTQ rights political violence hate speech inequality and immigration This Handbook will be essential reading for students and researchers of politics and religious studies Professionals policy oriented government corporations will also find the Handbook useful especially for research purposes

Acting for the Common Good Michael J. McGrath, 2023-08-08 The goods that we pursue in our lives are for us first and foremost goods that are particular and personal and thus goods that are immediate to our attention Not readily apparent to us are goods necessary for the flourishing of our lives but that can be attained by us only in consort with others and thus realized only through collective action Such goods are common goods The wider the good the more extensive must be the human cooperation to realize the good A stable orderly society and a habitable planetary environment are common goods that can be realized only in and through the cooperation of all for the benefit of all That all contribute to the shared good of the whole is a matter of justice social justice Acting for the Common Good undertakes the study of social justice in light of the common good this from the viewpoint of Catholic social teaching which draws upon the tradition of the common good that is articulated classically in the philosophy of Aristotle and the theology of Thomas Aquinas and in the modern day social thought and authoritative teachings of the Catholic Church

Towards a Global Consensus Against Corruption Mathis Lohaus, 2019-03-04 Corruption has long been identified as a governance challenge yet it took states until the 1990s to adopt binding agreements combating it While the rapid spread of anti corruption treaties appears to mark a global consensus a closer look reveals that not all regional and international organizations move on similar trajectories This book seeks to explain similarities and differences between international anti corruption agreements In this volume Lohaus develops a comprehensive analytical framework to compare international agreements in the areas of prevention criminalization jurisdiction domestic enforcement and international cooperation Outcomes range from narrow enforcement cooperation to broad commitments that often lack follow up mechanisms Lohaus argues that agreements vary because they are designed to signal anti corruption commitment to different audiences To demonstrate such different approaches to anti corruption he draws on two starkly different cases the Organization of American States and the African Union Contributing to debates on decision making in international organizations this work showcases how global governance is shaped by processes of diffusion that involve state and non state actors The book highlights challenges as well as chances linked to the patchwork of international rules It will be of great interest to students and scholars of IR theory global governance international organizations and regionalism
