Towards Bicultural Competence Beyond Black And White:

Towards Bicultural Competence Gloria Gordon, 2007 This book draws on first person action research and inquiry research process to provide a cultural analysis of black experience in white dominated society The author uses her personal experience of working with the racial confusion with which she lived until she decided to engage with what it means to be black instead of avoiding and denying it Her research takes her back in time to a shared history of slavery and colonization outwards to her experiences in white society and inwards to explore the psychological costs of her long silence The outcome is a book which offers a visionary and futuristic view of how whites and blacks can begin to work with the visible and invisible legacies of their shared histories towards a better world and guides readers towards the goal of conscious bicultural competence It explores the experience of members of the African Diaspora today providing important insights into many of the social problems they face in contemporary society such as the widely espoused underachievement of black boys in the British school system The book is an important text for understanding black and white relationships across the world an essential dimension of global social process It is essential reading for teachers educators and policy makers teacher trainers parents and everyone black and white who wants to understand how social inequality is maintained And it is especially timely in the year marking Britain's 200th anniversary of the legal abolition of the slave trade **ECRM2016-Proceedings of the**

Mixed Matters Denise Williams,2011 More often than not mixed race pupils are simply referred to as black and tend to be encompassed in a larger more diverse group of black pupils but the increased presence of mixed race pupils in schools needs to focus the efforts of education professionals to address issues of race ethnicity and culture Mixed Matters is essential reading for all educational professionals who want to get to grips with the issues that face mixed families and the pupils themselves as they share their personal experiences of what it is like to be them in the British schooling system The young people featured in this book challenge some of the commonly held assumptions made about them especially regarding their aspirations This book contains some resources that can be used to support work with mixed race pupils as well as initial training and professional development of teachers The book also details the approach of Mix d formerly the Multiple Heritage Project in organising youth conferences and training youth facilitators of mixed race to lead their peers in discussions about school and identity
