López,2020-12-11 A question raised by many individuals today How Safe is Our Food Consumed Today Food safety has become a hot topic and an important public issue due to the increasingly widespread nature of foodborne illnesses in both

developed and developing countries As food is biological in nature and supplies consumers with nutrients it is also equally capable of supporting the growth of microorganisms from the environmental sources A precise method of monitoring and detecting of foodborne pathogens including Salmonella sp Vibrio sp Listeria monocytogenes Campylobacter and Norovirus is needed to prevent and control human foodborne infections Clinical treatments of infection caused by foodborne pathogens are becoming tougher with the increase number of multidrug resistant pathogens in the environment This situation creates a huge healthcare burden e g prolonged treatment for infections decrease in the efficacy of antibiotic delay in treatment due to unavailability of new antibiotics and increased number of deaths As such continuous investigation of the foodborne pathogens is needed to pave the way for a deeper understanding on the foodborne diseases and to improve disease prevention management and treatments Security Owner's Stock Guide ,1979

The Changed Life: How COVID-19 Affected People's Psychological Well-Being, Feelings, Thoughts, Behavior, Relations, Language and Communication

Ramona Bongelli,Alessandra Fermani,Daniela Raccanello,Rob Hall,Ilaria Riccioni,Morena Muzi,Roberto Burro,2023-10-30 Covid 19 changed the lives of millions of people around the world The effects of the global pandemic on the physical and psychological health of individuals as well as on their behavioral habits relationships and the way they communicate do not seem to be only short or medium term but on the contrary appear to be long lasting In the same way that it is possible to use the term long covid to refer to the long term effects on the physical health of individuals who have contracted the virus so we think it is possible to use the expression psychological long covid to indicate the long term effects on the psychological health of individuals not only of those who have been infected but more generally of all those who have had to cope with social restrictions lockdowns distancing remote work and learning etc imposed by the pandemic At the same time many people demonstrated resilience as the capacity to cope with adverse events through positive adaptation
