RESEARCHER: "The results of this study suggest that the use of a computer-based system for the management of a large number of patients with a chronic condition can be effective in improving patient compliance and reducing health care costs. The system was found to be user-friendly and easy to learn, and it was able to provide timely reminders and prompts to patients. The study also found that the system was able to reduce the number of missed appointments and the number of hospitalizations. These findings suggest that the system could be a valuable tool for the management of chronic conditions." (1998, p. 123)

Furthermore, the increased stress that arises from increasing business responsibilities can be more readily overcome by a man who is in peak shape than one who isn't. Just as hard work in the business world can be its own reward, so is working out. In fact, shaping up not only ensures robust health and a longer life, but it improves a man's ability to bring about and enjoy business success by looking good, feeling good, and making good impressions on business colleagues. The Businessman's Minutes a Day Guide To Shaping Up is more than another book of exercise and diet tips. It addresses the problems a businessman faces in finding time to exercise, in setting goals for training, and in changing eating habits that make gaining or losing weight difficult. The Businessman's Minutes a Day Guide To Shaping Up includes exercise programs developed for a variety of needs and body structures, knowledgeable recommendations on training equipment, and on training at home, at a gym, or on the road; training programs for improved sports performance; expert advice on the prevention and treatment of training injuries, jet lag, stress, and anxiety; and even eye strain, a primer on the basics of nutrition, proper food combining, and vitamin and mineral supplementation; an account of one businessman's training under Dr. Columbu's direction that provides valuable insights on sticking to a training program, managing time, and setting goals.
