## **Touching Eternity The Enduring Outcomes Of Teaching:**

Touching Eternity Tom Barone, 2001 touching eternity explores how teachers can make a long term impact on the lives of their students Written in an accessible narrative style this case study of one high school art teacher and his former students invites readers to engage in fundamental and essential issues in teaching as well as in educational research Rather than drawing conclusions this book is uniquely designed to raise questions about the consequences of teaching and learning An extraordinary accomplishment I know of no other book like it in the field of education Its pages reflect Dewey's observation that one of the greatest of educational fallacies is that the student learns only what he or she is being taught at the time This book breaks new ground Elliot W Eisner Lee Jacks Professor of Education and Professor of Art Stanford University The strength of this masterfully written book lies in its determinate inconclusiveness It leaves many questions hauntingly unanswered so that they continue to gnaw at the reader long after the book has been put down Barone skillfully encourages teachers to debate these questions and interrogate these themes touching eternity is a book that demands our attention Peter McLaren Graduate School of Education and Information Studies UCLA and author of Che Guevara Paulo Freire and the Pedagogy of Revolution Now more than ever we need a book that shows us the subtle but long term effects of a teacher who tells students Follow your heart Susan Ohanian author of Caught in the Middle Nonstandard Kids and a Killing Curriculum

*Love, Justice, and Education* William H. Schubert, 2010-01-01 *Love Justice and Education* by William H Schubert brings to life key ideas in the work of John Dewey and their relevance for the world today He does this by imagining continuation of a highly evocative article that Dewey published in the New York Times in 1933 Dewey wrote from the posture of having visited Utopia Schubert begins each of thirty short chapters with a phrase or sentence from Dewey's article in response to which a continuous flow of Utopians consider what is necessary for educational and social reform among Earthlings Schubert encourages the Utopians who have studied Earthling practices and literatures to recommend from their experience what Earthlings need for educational and social reform and how they can address obstacles to that reform The Utopians speak to myriad implications of Dewey's report by drawing upon a wide range of philosophical literary and educational ideas including many of Dewey's other writings Their central message is that loving relationships and empathic dedication to social justice are necessary for educational reform that responds wholeheartedly to learner needs and interests True to Dewey's original position such education must be built upon social reform that works to overcome acquisitive society based on greed the principal impediment to realizing human potential democratic society and educational relationships that enhance it To overcome the debilitating acquisitiveness that plagues Earth is the challenge for educators and all human beings who seek to involve the young in composing their lives and cultivating a world of integrity beauty justice love and continuously evolving capacities of humanity

**Putting Theory into Practice in the Contemporary Classroom** Becky McLaughlin, 2017-01-06 This collection of fourteen essays by scholars from Canada Europe the United Kingdom and the United States emerges from a growing interest in the ways postmodern theory can

illuminate not just the products and ideas of high culture but also the ins and outs of everyday life Taking the university classroom broadly construed as a site of theoretical investigation this volume helps us to understand troublesome classroom dynamics as well as offering pedagogical strategies for dealing with them It also illuminates current pressures on higher education that find expression in the classroom As a forum for these issues these essays draw upon Deleuzian feminist Foucauldian and psychoanalytic approaches among others recognizing not only that these approaches are often in conflict but also that collectively they enhance our understanding of the classroom Important questions posed here include whether and if so how we can combine a Marxist or Foucauldian emphasis on the disciplinary and hegemonic practices of educational institutions with a Lacanian or Barthesian appreciation for the disruptive pleasures and drives that the unconscious produces within and through students teachers and classrooms Which theoretical and pedagogical innovations can help teachers and students to get the job done as well as to theorize the job to simultaneously practice education and imagine other forms and ends for education How can theory help us to historicize criticize and re draw the productive but sometimes disabling lines that make the classroom and its subjects A site for lively theoretical debate about these and related pedagogical issues this volume will prove useful for anyone wanting to reinterpret reinvent and reinvigorate the classroom

Sociocultural Influences and Teacher Education Programs Dennis M. McInerney, Shawn Van Etten, 2003-06-01 In this volume we describe exemplary programs in teacher education that attempt to address some of the issues alluded to above Our authors address theoretical perspectives on the importance of teacher education for improving educational outcomes the achievement gap between different groups and in particular the significant achievement gap between indigenous students and other minorities and mainstream groups and how this might be overcome by better trained teachers and how teachers learn to be effective teachers and are these skills of effective teaching broadly applicable across all educational environments
