Touching Photographs Touching Photographs:

Touching Photographs Margaret Olin, 2012-04-18 Photography does more than simply represent the world. It acts in the world connecting people to form relationships and shaping relationships to create communities. In this beautiful book Margaret Olin explores photography's ability to touch us through a series of essays that shed new light on photography's role in the world. Olin investigates the publication of photographs in mass media and literature, the hanging of exhibitions, the posting of photocopied photographs of lost loved ones in public spaces, and the intense photographic activity of tourists at their destinations. She moves from intimate relationships between viewers and photographs to interactions around larger communities, analyzing how photography affects the way people handle cataclysmic events like 9/11. Along the way, she shows us James VanDerZee's Harlem funeral portraits, dusts off Roland Barthes's family album, takes us into Walker Evans and James Agee's photo-text *Let Us Now Praise Famous Men*, and logs onto online photo albums. With over one hundred illustrations, *Touching Photographs* is an insightful contribution to the theory of photography, visual studies, and art history.

Photography, Temporality, and Modernity Kris Belden-Adams, 2019-01-14 This book examines the photography's unique capacity to represent time with a degree of elasticity and abstraction. Part object study, part cultural philosophical history, it examines the medium's ability to capture and sometimes defy time while also traveling as objects across time and space. The book features studies of understudied, widespread practices: studio portraiture, motion studies, panoramas, racing photo-finishes, composite college class pictures, planetary photography, digital montages, and extended exposure images. A closer look at these images and their unique cultural/historical contexts reveals photography to be a unique medium for expressing changing perceptions of time and the anxiety its passage provokes. **Photographic Returns** Shawn Michelle Smith, 2020-01-03 In *Photographic Returns*, Shawn Michelle Smith traces how historical moments of racial crisis come to be known photographically and how the past continues to inhabit, punctuate, and transform the present through the photographic medium in contemporary art. Smith engages photographs by Rashid Johnson, Sally Mann, Deborah Luster, Lorna Simpson, Jason Lazarus, Carrie Mae Weems, Taryn Simon, and Dawoud Bey, among others. Each of these artists turns to the past, whether by using nineteenth-century techniques to produce images or by re-creating iconic historic photographs as a way to use history to negotiate the present and to call attention to the unfinished political project of racial justice in the United States. By interrogating their use of photography to recall, revise, and amplify the relationship between racial politics of the past and present, Smith locates a temporal recursivity that is intrinsic to photography in which images return to haunt the viewer and prompt reflection on the present and an imagination of a more just future. *Podcasting as an Intimate Medium* Alyn Euritt, 2022-11-18 This book delves into the notion of intimacy as a defining feature of podcasting, examining the concept of intimacy itself and how the public sphere explores the relationships created and maintained through podcasts. The book situates textual analysis of specific American podcasts within podcast criticism, monetization, and production advice. Through

analysis of these sources self descriptions the text builds a podcasting specific framework for intimacy and uses that framework to interpret how podcasting imagines the connections it forms within communities Instead of intimacy being inherent the book argues that podcasting constructs intimacy and uses it to define the quality of its own mediation This book will be of interest to scholars and students of New and Digital Media Media Studies Communication Studies Journalism Literature Cultural Studies and American Studies The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution 4.0 license

The Public Image Robert Hariman, John Louis Lucaites, 2016-11-07 Even as the media environment has changed dramatically in recent years one thing at least remains true photographs are everywhere From professional news photos to smartphone selfies images have become part of the fabric of modern life And that may be the problem Even as photography bears witness it provokes anxieties about fraudulent representation even as it evokes compassion it prompts anxieties about excessive exposure Parents and pundits alike worry about the unprecedented media saturation that transforms society into an image world And yet a great news photo can still stop us in our tracks and the ever expanding photographic archive documents an era of continuous change By confronting these conflicted reactions to photography Robert Hariman and John Louis Lucaites make the case for a fundamental shift in understanding photography and public culture In place of suspicions about the medium's capacity for distraction deception and manipulation they suggest how it can provide resources for democratic communication and thoughtful reflection about contemporary social problems The key to living well in the image world is to unlock photography from viewing habits that inhibit robust civic spectatorship Through insightful interpretations of dozens of news images *The Public Image* reveals how the artistry of the still image can inform challenge and guide reflection regarding endemic violence environmental degradation income inequity and other chronic problems that will define the twenty first century By shifting from conventional suspicions to a renewed encounter with the image we are challenged to see more deeply on behalf of a richer life for all and to acknowledge our obligations as spectators who are crucially also citizens

Benjamin, Barthes and the Singularity of Photography Kathrin Yacavone, 2012-02-02 Benjamin Barthes and the Singularity of Photography presents two figures of the twentieth century in a comparative light Pursuing aspects of Benjamin's and Barthes's engagement with photography it provides interpretations of texts argues that despite the different historical philosophical and cultural contexts of their work Benjamin and Barthes engage with similar issues and problems that photography poses including the relationship between the photograph and its beholder as a confrontation between self and other and the dynamic relation between time subjectivity memory and loss Each writer emphasizes the singular event of the photograph's apprehension and its ethical and existential aspects rooted in the power and poignancy of photographic images The book mapping the relationship between photographic history and theory cultural criticism and autobiography
