

Sewing in zippers

The zipper foot E can be attached so that it is located either to the right or to the left of the needle, making it easy to sew both sides of the zipper.

Lapped zipper

Baste the opening together with a decreased upper thread tension and long stitches. Leave approx. 2 cm (3/4") open at the top. Turn the work so that the wrong side is up. Fold the left seam allowance outward a couple of mm from the basted seam.

Attach the zipper foot to the left of the needle. Use the lower needle stop position if you have model 190. Place the zipper with the right side up under the folded seam allowance and sew the right edge of the zipper, starting at the bottom. Open the zipper a couple of cm (1") before the seam is finished, raise the zipper foot and pull the tab behind the foot. Lower the foot and finish the seam.

Move the zipper foot to the right of the needle. To sew the other edge of the zipper on the right side of the fabric, start with perpendicular stitching at the lower edge and then sew from the bottom to the top. Remove the basting.
