Soggie, 2016-08-30 Following World War II, Viktor Frankl revolutionized the field of psychotherapy with the inception of logotherapy. With *Logotherapy: Viktor Frankl's Life and Work*, Soggie offers a compelling and comprehensive introduction to both the man and his contribution to psychotherapy. Through the examination of Frankl's life as a boy to his days in a concentration camp and his post-war work, Soggie paints a rich portrait of Frankl and the origins of logotherapy. Complete with in-depth explanations of logotherapy's key concepts including dimensionalism, love, responsibility and freedom of the will, this book serves as a great complement to Frankl's own works and a valuable resource to practitioners and therapists in training alike. **Making Sense of Suffering: A Collective Attempt**, 2019-01-04 This volume was first published by Interdisciplinary Press in 2013. In November 2011, academics from across the disciplines came together to discuss the idea of suffering. This book is a product of that meeting, bringing together the ideas of 17 authors to discuss from different perspectives what does it mean to suffer and can meaning be made out of suffering. **The Adversity Formula** Steven Mason, 2024-06-14 Early in the 2020 pandemic, author Steven Mason, seeking inspiration to help cope during the Covid-19 crisis, began to examine the lives of some of the great personalities from history. After considerable research, he discovered that many of these individuals had overcome significant adversity on their path to success. After sharing these stories with others, he was inspired to write this book. *The Adversity Formula: Inspirational Lessons from History* reviews the lives of thirty remarkable characters from history to see how they dealt with adversity. The book goes on to provide a formula that readers can themselves apply to their own lives. Selected mainly from the 20th Century, the fifteen men and fifteen women include scientists, entrepreneurs, humanitarians, politicians, entertainers, sports stars and war heroes. The list contains well-known names like Stephen Hawking, Steve Jobs and Walt Disney, but also features lesser-known profiles of Virginia Hall, Irena Sendler and Victor Frankl, a Holocaust survivor who, after his experiences in the concentration camps, developed a therapy to find meaning and purpose in adversity. The book looks at the adversity these greats faced, what they achieved despite it, but also how they dealt with adversity, often using it to their advantage. Their coping mechanisms are summarised in five characteristics for each individual and packaged into a general formula for tackling life's problems. The conclusion found within these pages is that it is often how people respond to adversity that can determine successful outcomes. *The Adversity Formula: Inspirational Lessons from History* will be particularly relevant to those interested in self-development, especially during difficult times, as well as those with a love of history. The book offers hope in the face of life's major challenges.
