Villa Muller Leslie Van Duzer, Kent Kleinman, Adolf Loos, 1994 A collection of documentaries that explore the history and spirit of the Olympic Games The Olympic Spirit traces the history of the Olympic Games from their origin in Ancient Greece to their revival in 1896 under the stewardship of Baron Pierre de Coubertin and subsequent growth Greatest Moments of the Olympics contains a series of two minute vignettes that set out to capture the spirit of the Olympic Games Finally Olympic Sports takes an in depth look at the history and evolution of individual Olympic sports including sprinting middle distance running swimming diving and cycling and includes interviews with current Olympic champions Pieter Van Den Hoogenband and Michael Phelps **The New Space** Christopher Long, 2016-11-22 APPENDIX Essays by Oskar Strnad Heinrich Kulka and Josef Frank NOTES BIBLIOGRAPHY INDEX A B C D E F G H I J K L M N O P R S T U V W Z **Archives, Documentation, and Institutions of Social Memory** Francis Xavier Blouin, William G. Rosenberg, 2007-08-02 Essays exploring the importance of archives as artifacts of culture **Raumplan Versus Plan Libre** Adolf Loos, Le Corbusier, Johan van de Beek, 2008 This revised and updated edition looks anew at the respective merits of two giants of modern architecture As well as featuring writings by the architects themselves the book illustrates the evolution of the work of Loos and Le Corbusier with detailed reference to their domestic projects ranging from the Strasser House 1919 to the Last House 1932 and from Maison Domino 1915 to Villa Savoye 1932 **Adolf Loos** Joseph Masheck, 2013-03-21 Widely regarded as one of the most significant prophets of modern architecture Adolf Loos was a celebrity in his own day His work was emblematic of the turn of the century generation that was torn between the traditional culture of the nineteenth century and the innovative modernism of the twentieth His essay Ornament and Crime equated superfluous ornament and decorative arts with tattooing in an attempt to tell modern Europeans that they should know better But the negation of ornament was supposed to reveal not negate good style and an incorrigible ironist has been taken too literally in denying architecture as a fine art Without normalizing his edgy radicality Masheck argues that Loos masterful stylistic architecture was an appreciation of tradition and utility and not as most architectural historians have argued a mere repudiation of the florid style of the Vienna Secession Masheck reads Loos as a witty ironic rhetorician who has all too often been taken at face value Far from being the anti architect of the modern era Masheck s Loos is an unruly yet integrally canonical artist architect He believed in culture comfort intimacy and privacy and advocated the evolution of artful architecture This is a brilliantly written revisionist reading of a perennially popular architect Haus Müller in Prag , 2002 **Kafka's Architectures** Ayad B. Rahmani, 2015-01-02 Adopting Kafka as a lens to examine modern concepts in architecture this book pries open new interpretations in Kafka scholarship Each of eight chapters takes up an architectural element with which to explore meanings central to both literature and architecture Stairs function as vertical access but in Kafka s hands become an instrument of science testing the merit of natural selection Kafka s doors open and close less to allow passage than to reconcile one psychological interior

with the next Notions of plumbing and hygiene begin to acquire new meaning The architecture of Mies van der Rohe begins to make more sense especially his tabula rasa approach to design signifying less a harsh disdain for site and more a response to a reality in which the ceremony of the stairs had died and was replaced by the pervasive flatness of the modern floor

Ornament and Class Gary Huafan He, 2025-03-13 This groundbreaking study examines the intricate relationship between the rise of the nineteenth century bourgeoisie and the emergence of modern architecture exploring this connection through major intellectual and theoretical works while also analyzing their tangible manifestations in buildings and architectural projects Contrary to received narratives that describe the birth of modern architecture as primarily an aesthetic movement *Ornament and Class* argues that the social and political maturation of the European bourgeoisie as a distinct yet heterogeneous group influenced modern attitudes toward architecture at every level Bringing architecture into conversation with recent histories of the bourgeoisie in the social sciences the book considers how architecture was used as a tool to separate the modern bourgeoisie from the aristocratic and clerical forces above and the working classes below It explores how architects clients planners and administrators grappled with and dealt with ornament architecture and modernity from within the new realities of urban and global capitalism and shows how these realities serve as pedagogical touchstones that remain with us today Historians architecture scholars and students interested in modern architecture aesthetics and European history especially those focusing on the interplay between modern architecture and social development will find this book an invaluable resource

Adolf Loos Panayotis Tournikiotis, 2002 Originally published in French 1991 Editions Macula Paris profiles the Viennese architect who was one of the most important pioneers of the European Modern Movement Born in 1870 Loos was

an early opponent of the decorative trend of Art Nouveau believing instead that architecture devoid of ornament represented pure and lucid thought His rationalist design theories were put into practice in the Karntner Bar Vienna 1907 Steiner House Vienna 1920 and Villa Muller Prague 1930 Annotation copyright by Book News Inc Portland OR
