Violence Politique Totale Sciences Sociales:

Violence politique totale Jérôme Ferret, 2015-08-25 Du 11 septembre 2001 aux attentats de Paris en 2015 les sciences sociales se trouvent incontestablement perturbées dans leur capacité d'expliquer la survenue des formes de violence les plus radicales Sauront-elles de nouveau clairement expliquer le monde en train de se défaire et de se refaire Family and Jihadism Jérôme Ferret, Farhad Khosrokhavar, 2021-12-28 This volume explores the paramount importance of family to jihadism in France Spain and in Europe more generally In France special focus is given to the Mohammed Merah paradigmatic case study in the Toulouse region In Spain attention is given to the North and to Catalonia With attention to both the concrete family often in crisis and the imaginary family invented by radicalized youth to substitute this book shows the fundamental need among many jihadists to reconstitute the family whether in the form of a clan or the imagined Caliphate or neo Ummah a form of shared existence that offers escape from societies in which jihadists feel ill at ease Demonstrating the failure of an emphasis on the individual actor to capture the meaning of jihadism Family and Jihadism reveals the fundamental importance to our understanding of jihadist activity of the family in an extended anthropological sense real or imagined into which the individual is inserted A study of the crisis of family and the re-creation of a new enlarged family in the lives of young jihadists this book will appeal to scholars of sociology anthropology politics and security studies with interests in radicalisation political violence social movements and religious violence *Rethinking Society for the 21st Century: Volume 2, Political Regulation, Governance, and Societal Transformations* International Panel on Social Progress (IPSP), 2018-07-19 This is the second of three volumes containing a report from the International Panel on Social Progress IPSP The IPSP is an independent association of top research scholars with the goal of assessing methods for improving the main institutions of modern societies Written in accessible language by scholars across the social sciences and humanities these volumes assess the achievements of world societies in past centuries the current trends the dangers that we are now facing and the possible futures in the twenty first century It covers the main socio economic political and cultural dimensions of social progress global as well as regional issues and the diversity of challenges and their interplay around the world This particular volume covers topics such as democracy and the rule of law violence and wars international organizations and global governance and media and communications *Radical Thought among the Young: A Survey of French Lycée Students*, 2020-08-25 France experienced an unprecedented wave of terrorist attacks in 2015 Following these tragic events social science researchers felt the need to undertake new work to better understand the dynamics of this new radicalism This book is the result of one of these attempts A large quantitative and qualitative survey was conducted among French Lycée students in order to gather substantive information and propose an interpretation of the penetration of radical ideas be they religious or political among them How widespread are these radical ideas What are the main characteristics of youngsters who share them Are there links between religious radicalism and political radicalism How do young people feel about the 2015 terrorist attacks How do

Breaking Laws Isabelle Sommier,Graeme Hayes,2025-10-01 Breaking Laws Violence and Civil Disobedience in Protest questions the complex relationship between social movements and violence through two contrasted lenses first through the short lived radical left wing post 68 revolutionary violence and secondly in the present diffusion of civil disobedience actions often at the border between non violence and violence This book shows how and why violence occurs or does not and what different meanings it can take The short lived extreme left revolutionary groups that grew out of May 68 and the opposition to the Vietnam War such as the German Red Army Faction the Italian Red Brigades and the Japanese Red Army are without any doubt on the violent side More ambiguous are the burgeoning contemporary forms of civil disobedience breaking the law with the aim of changing it In theory these efforts are associated with non violence and self restraint In practice the line is more difficult to trace as much depends on how political players define and frame non violence and political legitimacy

Rapport Mondial Sur Les Sciences Sociales Conseil international des sciences sociales,Delphine Ettinger,UNESCO,2012-03-01 Au cours des vingt derni res ann es les sciences sociales se sont largementinternationalis es Elles sont enseign es partout ou presque Les r sultats de leurs recherches sont largement diss min s Une forte demande pour uneexpertise en sciences sociales est exprim e tant par les d

cideurs et les médias par le grand public les concepts et les théories des sciences sociales influencent plus que jamais sur l'opinion publique et sont présents dans les débats. Toutefois, des disparités dans la production et l'utilisation des savoirs limitent la capacité des scientifiques à comprendre comment différents sociétés fonctionnent et volent. Ces divisions empêchent de fournir aux décideurs et la société les savoirs dont ils ont besoin pour faire face aux grands enjeux contemporains. La pauvreté, les inégalités et le changement climatique sont autant de problèmes auxquels les sciences sociales doivent apporter des éléments de réponse. Plus et de meilleures sciences sociales sont requises. Pour ce faire, des capacités en sciences sociales doivent être développées, particulièrement dans les régions où les problèmes sociaux sont les plus aigus et les systèmes de recherche les plus faibles.

Information Sur Les Sciences Sociales International Social Science Council, 2004

Les Sciences sociales dans le monde Ali Kazancigil, 2001

Le 20^e siècle a été le siècle des sciences sociales. Leur développement rapide d'après-guerre a été brisé par la crise traversée par les sociétés au cours du dernier quart de siècle. L'optimisme et l'universalisme dont elles étaient porteuses ont été remis en cause et l'on sait depuis que le monde ne peut être compris qu'à partir d'une multiplicité de points de vue. L'ouvrage fruit d'un travail collectif offre un panorama international des sciences sociales en général dans les diverses parties du monde : sciences sociales en Asie du Sud, puis en Asie de l'Est, dans le Pacifique, de l'état de la recherche dans certains champs d'application, des liens entre la recherche et la décision, enfin des questions relatives aux données statistiques et leur utilisation. Il s'agit d'un outil d'évaluation qui facilite l'approche de chaque personne désireuse de comprendre ces sciences qui ont pour ambition d'éclairer les choix individuels et collectifs.
