Virtue And The Way Cultivating Flood Like Qi:

The Oxford Handbook of Philosophical Theology Thomas P. Flint, Michael Rea, 2009-02-26 Philosophical theology aims at achieving a theoretical understanding of the nature and attributes of God and of God's relationship to the world and its inhabitants. Contains twenty-six new essays in five sections: Theological Prolegomena, Divine Attributes, God and Creation, Topics in Christian Philosophy, and Non-Christian Philosophical Theology. **The Hermeneutical Self and an Ethical**

Difference Paul S. Chung, 2012-07-26 Incorporating a tour of the past and a proposition for the future, Chung presents a fascinating study of inter-civilizational hermeneutics that embraces our modern times and suggests the liberative potential of hermeneutical study. Adopting a subtle approach that stays clear of trying to impose upon the reader a simplistic understanding of hermeneutical discourses, Chung instead draws on a host of classical and modern scholars in search of a new and refreshing global hermeneutical theory. **Essays on the Moral Philosophy of Mengzi** Xiusheng Liu, P. J. Ivanhoe, 2002-01-01 Mengzi (Mencius) is known for his sophisticated views on human nature and moral psychology. These essays explore a range of philosophical ideas at the core of his moral philosophy and relate them to both traditional Chinese and current Western philosophical concerns. The introduction provides historical background and philosophical context and discusses each of the selections alongside Mengzi's work as a whole. **Reading Medieval Chinese Poetry**, 2014-11-20

Nine renowned sinologists present a range of studies that display the riches of medieval Chinese verse in varied guises. All major verse forms including shi, fu, and ci are examined with a special focus on poetry's negotiation with tradition and historical context. Dozens of previously untranslated works are here rendered in English for the first time, and readers will enter a literary culture that was deeply infused with imperatives of wit, learning, and empathy. Among the diverse topics met with in this volume are metaphysical poetry as a medium of social exchange, the place of ruins in Chinese poetry, the reality and imaginary of frontier borderlands, the enigma of misattribution, and how a 19th-century Frenchwoman discovered Tang poetry for the Western world. Contributors include Timothy Wai Keung Chan, Robert Joe Cutter, Ronald Egan, David R. Knechtges, Paul W. Kroll, Stephen Owen, Wendy Swartz, Ding Xiang Warner, and Pauline Yu. *Moral Psychology of Confucian Shame* Bongrae Seok, 2017-01-13 Early Confucian philosophers notably Confucius and Mencius emphasized moral

significance of shame in self-cultivation and learning. In their discussion, shame is not just a painful sense of moral failure or transgression but also a moral disposition and a form of moral excellence, i.e., virtue that is essential to Confucian self-cultivation. In *Moral Psychology of Confucian Shame*, Bongrae Seok argues that shame is a genuine moral emotion and moral disposition. Engaging with recent studies of social psychology, cultural psychology, biology, and anthropology, Seok explains that shame is a uniquely evolved form of moral emotion that is comparable to but not identical with guilt. The author goes on to develop an interpretation of Confucian shame that reveals the embodied, interactive, and transformative nature of the Confucian moral self. [Dao Companion to the Philosophy of Mencius](#) Yang Xiao, Kim-chong Chong, 2023-04-11 This book is

about the philosophical historical and interpretative aspects of Mencius It explores his influence reception and relevance in China from the third century BCE to the present as well as offers comparative studies of Mencius and major figures in the history of Chinese and Western philosophy With 34 accessible articles written by leading philosophers and scholars the Dao Companion to the Philosophy of Mencius provides both broad pictures and in depth discussions regarding the work of one of the most important and influential Chinese philosophers It covers his normative ethics meta ethics political philosophy epistemology and moral psychology The last section of the volume Mencius and Western Philosophers Comparative Perspectives explicitly puts him in dialogue with major Western philosophers The Dao Companion to the Philosophy of Mencius serves as an essential volume for college students graduate students and scholars who study and teach Mencius as well as Chinese philosophy and comparative philosophy in general *Self-Cultivation in Early China* Paul

Fischer,2022-07-01 Self Cultivation in Early China is an introduction to multiple aspects of the foundational practice of self cultivation in early China c 1000 to 100 BCE Drawing on the Chinese classics and the dozens of scholars texts both received and excavated that together form the basis of intellectual history for China and all of East Asia the book s analysis relies on the topics and categories that were central to the thought of these authors including such well known thinkers as Confucius and Laozi This book describes a salient point of view from which we may consider the broader landscape of Chinese intellectual history and presents an important paradigm of the scholarly Chinese worldview that is ideal for comparison with paradigms in other communities ancient or modern across the globe *The Way of Virtue* Robert Peng,Rafael

The Cave and the Butterfly Paul S. Chung, 2011-01-01 This study offers an intercultural theory of interpretation and religion It does so by bringing Western and East Asian traditions into dialogue regarding the nature of interpretation The result of this innovative study is a theory of interpretation which integrates the socially embodied dimension of human life with the study of hermeneutics and religion in post foundational and cross cultural perspective Toward this end Paul Chung offers a constructive theology of divine speech acts in a manner more amenable to the social public sphere than other proposals In all of this he deeply considers intercultural horizon of interpretation between West and East and its implications for a theology of interpretation The result

is a truly theological theory of interpretation that takes seriously the issues of intercultural studies and their intersection with Christian doctrine
