Visual Theology Forming And Transforming The Community Through The Arts:

Visual Theology Robin Margaret Jensen, Kimberly J. Vrudny, 2009 At least since the time of Paul see Acts 18 Christians have wrestled with the power and danger of religious imagery in the visual arts It was not until the middle of the twentieth century that there emerged in Western Christianity an integrated academic study of theology and the arts Here one of the pioneers of that movement H Wilson Yates along with fourteen theologians examine how visual culture reflects or addresses pressing contemporary religious questions The aim throughout is to engage the reader in theological reflection mediated and enhanced by the arts This beautifully illustrated book includes more than fifty images in full color The Artistic Sphere Roger D. Henderson, Marleen Hengelaar-Rookmaaker, 2024-01-02 The Neo Calvinist tradition is well equipped to offer wisdom on the arts to the whole body of Christ Edited by art scholar Roger Henderson and Marleen Hengelaar Rookmaaker daughter of Hans Rookmaaker this volume brings together history philosophy and theology to consider the relationship between the arts and the Neo Calvinist tradition *Art and the Church: A Fractious Embrace* Jonathan Koestle-Cate, 2016-04-20 A vibrant critical exchange between contemporary art and Christianity is being increasingly prompted by an expanding programme of art installations and commissions for ecclesiastical spaces Rather than religious art reflecting Christian ideology current practices frequently initiate projects that question the values and traditions of the host space or present objects and events that challenge its visual conventions In the light of these developments this book asks what conditions are favourable to enhancing and expanding the possibilities of church based art and how can these conditions be addressed What viable language or strategies can be formulated to understand and analyse art's role within the church Focusing on concepts drawn from anthropology comparative religion art theory theology and philosophy this book formulates a lexicon of terms built around the notion of encounter in order to review the effective uses and experience of contemporary art in churches The author concludes with the prognosis that art for the church has reached a critical and decisive phase in its history testing the assumption that contemporary art should be a taken for granted element of modern church life *Art and the Church A Fractious Embrace* uniquely combines conceptual analysis critical case studies and practical application in a rigorous and inventive manner dealing specifically with contemporary art of the past twenty five years and the most recent developments in the church's policies for the arts *ReVisioning* James Romaine, Linda Stratford, 2014-05-20 *ReVisioning* Critical Methods of Seeing Christianity in the History of Art examines the application of art historical methods to the history of Christianity and art As methods of art history have become more interdisciplinary there has been a notable emergence of discussions of religion in art history as well as related fields such as visual culture and theology This book represents the first critical examination of scholarly methodologies applied to the study of Christian subjects themes and contexts in art *ReVisioning* contains original work from a range of scholars each of whom has addressed the question in regard to a well known work of art or body of work How have particular methods of art history been applied

and with what effect The study moves from the third century to the present providing extensive treatment and analysis of art historical methods applied to the history of Christianity and art Spirit of the Arts Steven Félix-Jäger,2017-11-01 A contribution to the field of theological aesthetics this book explores the arts in and around the Pentecostal and charismatic renewal movements It proposes a pneumatological model for creativity and the arts and discusses different art forms from the perspective of that model Pentecostals and other charismatic Christians have not sufficiently worked out matters of aesthetics or teased out the great religious possibilities of engaging with the arts With the flourishing of Pentecostal culture comes the potential for an equally flourishing artistic life As this book demonstrates renewal movements have participated in the arts but have not systematized their findings in ways that express their theological commitments until now The book examines how to approach art in ways that are communal dialogical and theologically cultivating *She who Imagines* Laurie M. Cassidy, Maureen H. O'Connell,2012 The idea and ideal of beauty has been used to oppress women of different ages body types skin color and physical ability The theoretical discussion of aesthetics has also been conditioned by these same dynamics of power and oppression In *She Who Imagines* a diverse set of scholars challenges the exclusion and false definitions while constructing capacious ideas that discover beauty in unexpected places In these essays the authors draw on a variety of arts media painting photography portraiture craftwork poetry and hip hop music thereby joining beauty to truth and in a richly defining way to the practice of justice In a variety of ways all the essays link women's definitions of beauty with experiences of suffering and hence with the yearning for justice All clearly prize resistance to degradation as an essential element of thought *Imaging the Story* Karen Case-Green, Gill C. Sakakini,2017-05-08 Tell all the Truth but tell it slant Emily Dickinson This course follows the contours of the salvation story through the lens of the arts Putting visual art and poetry in conversation with the Bible it seeks to engage the imagination Rather than analyzing the narrative the reader is invited to behold it and respond to it through making either verbally or visually At times the church has treated the imagination like an embarrassing relative Yet the Bible is image rich drawing widely on the imagination and we are each made in the image of the creator God It is time to bring the imagination out of the corner For we are God's handiwork created in Christ Jesus to do good works which God prepared in advance for us to do Eph 2 10 NIV Whether following it as a group or reading it alone this course book will appeal to anyone with an interest in the salvation story and the arts It is particularly for those who feel permission is needed to pick up a paintbrush or any other creative medium just for the love of it Spiritual Traces Aaron Rosen,2025-09-23 Some of the most compelling spiritual insights today come from artists both through their art and what they say about it Yet interviewers and critics rarely ask artists searching questions about their spiritual interests missing a key feature in the landscape of contemporary art With a fresh jargon free style Aaron Rosen a leading scholar writer and curator addresses this gap He takes readers into studios galleries and worship spaces as he paints a compelling picture of art and spirituality today through essays and interviews As the title suggests Rosen pays special

attention to places where spiritual traces might appear hidden fleeting or on the edge of possibility which creates room for readers to ruminate on their own spiritual leanings and interests Rosen focuses on close engagements with individual artists from established names to emerging talents drawing upon close relationships with artists from across the globe and many traditions With more than sixty color images of works ranging from paintings to performances this volume is essential reading for those looking to see art today in a new light *Teaching for a Multifaith World* Eleazar S. Fernandez, 2017-05-05

When religious diversity is our reality radical hospitality to people of other faiths is not a luxury but a necessity More than necessary for our survival radical hospitality to religious diversity is necessary if we are to thrive as a global society By no means does the practice of hospitality in a multifaith world require that we be oblivious of our differences On the contrary it demands a respectful embrace of our differences because that is who we are Neither does radical hospitality require that we water down our commitment because faithfulness and openness are not contradictory We must be able to say with burning passion that we are open to the claims of other faiths because we are faithful to our religious heritage The essays in this book do not offer simply theological exhortations they offer specific ways of how we can become religiously competent citizens in a multifaith world Let us take the bold steps of radical openness with this book on our side *Redeeming Transcendence in the Arts* Jeremy Begbie, 2018-06-30

How can the arts witness to the transcendence of the Christian God It is widely believed that there is something transcendent about the arts that they can awaken a profound sense of awe wonder and mystery of something beyond this world Many argue that this opens up fruitful opportunities for conversation with those who may have no use for conventional forms of Christianity Jeremy Begbie a leading voice on theology and the arts in this book employs a biblical trinitarian imagination to show how Christian involvement in the arts can and should be shaped by a vision of God's transcendence revealed in the person of Jesus Christ After critiquing some current writing on the subject he goes on to offer rich resources to help readers engage constructively with the contemporary cultural moment even as they bear witness to the otherness and uncontainability of the triune God of love
