

Concluding Sentences

A concluding sentence brings an entire paragraph to a close. A concluding sentence should restate the topic sentence and pull together only information which has been previously presented. The followings words are commonly used to signal to the reader that they have reached the concluding sentence:

thus**as a result****therefore****consequently****finally****to summarize****in summary****in conclusion**

DIRECTIONS: Read the paragraph. Then write a concluding sentence for it using an end-of-paragraph signal.

Though small turtles can be adorable, it is not a good idea to take one home for a pet. First, wild turtles may bite you. Second, turtles carry dangerous germs on their skin and shells, most frequently the bacteria that cause salmonella. Salmonella is a bacterial infection which can cause fever, stomach pain, nausea, diarrhea, and headaches. Finally, living as a pet in captivity is not good for the turtle. Furthermore, turtles have long lifespans and mature very slowly, so removing turtles from the wild decreases the survival rate of their wild populations.
