Writing Arguments 7th Grade:

Transforming Talk into Text—Argument Writing, Inquiry, and Discussion, Grades 6-12 Thomas M. McCann, 2014-05-23

Author Thomas McCann invites readers to rethink their approach to teaching writing by capitalizing on students' instinctive desire to talk. Drawing on extensive classroom research, he shows teachers how to craft class discussions that build students' skills of analysis, problem solving, and argumentation as a means of improving student writing. McCann demonstrates how authentic discussions immerse learners in practices that become important when they write. Chapters feature portraits of teachers at work, including transcripts that reveal patterns of talk across a set of lessons. Interviews with the teachers and samples of student writing afford readers a deeper understanding of process. Students also report on how classroom discussions supported their effort to produce persuasive argument-driven essays.

Book Features:

- A focus on the thinking behind the practice, as opposed to a collection of lesson ideas.
- Connections to important elements from the Common Core State Standards, especially arguments writing.
- Examples of students at work with examples of the writing that emerges from their discussions.
- Portraits of skilled teachers as they promote inquiry and sequence and facilitate discussions.
- Appendices with problem-based scenarios, interview questions for students and teachers, samples of debatable cases in the news, and more.

In this important book, Tom McCann has given us not only the admonition to change but the details about what effective change must be and what it looks like: evidence that it works effectively and details about how to bring it to pass.

Foreword by George Hillocks Jr., Professor Emeritus, Department of English, University of Chicago: For a professional book to have an impact on the field, it needs to address a perceived need. Writing arguments for Common Core performance assessments is a HUGE need right now; that this book helps address it is a huge contribution.

Argument Writing, Teacher Guide, Grades 9-12 PCG Education, 2016-06-07

Argument Writing Paths to College and Career: Jossey-Bass and Public Consulting Group Inc. PCG are proud to bring the Paths to College and Career English Language Arts (ELA) curriculum and professional development resources for grades 6-12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences, the standards require Paths to College and Career to include daily lesson plans, guiding questions, recommended texts, scaffolding strategies, and other classroom resources. The Paths Writing Units—Argument Writing, Informative Writing, and Narrative Writing—complement the full instructional program and can also be used independently, providing in-depth writing instruction to support all students in grades 9-12 in meeting grade-level standards. To emphasize the relationship between reading and writing, each Writing Unit includes accessible model texts that exemplify key elements of each text type and source texts that provide a topic for the unit writing assignment. Individual lessons guide students through the writing process, providing instruction on grammar and conventions and highlighting collaboration and reflection as key elements of effective writing. Students' final essays are assessed using a checklist developed by the class over the course of the unit. The

organization and distinctive content of the model and source texts in each unit afford teachers the flexibility to implement each unit independently of the others and at any point during the curriculum For example a unit may be implemented to assess students writing prior to implementation of the standard curriculum to scaffold writing instruction leading into a writing assessment or to support struggling writers by addressing gaps in skills as demonstrated in previous assessments The Paths Writing Units provide teachers with invaluable opportunities to engage students as active participants in their own learning at every stage of the writing process and to customize instruction to meet the varying needs of all students ABOUT PUBLIC CONSULTING GROUP Public Consulting Group works with schools districts and state education agencies to build their capacity for instructional and programmatic improvements We provide curriculum development coaching professional development and technical assistance services Our work alongside educators and policy makers ensures effective implementation of both the Common Core State Standards and state specific standards for college and career readiness As the creators of the Paths ELA curriculum for grades 6 12 Public Consulting Group provides a professional learning program that ensures the success of the curriculum The program includes Nationally recognized professional development from an organization that has been immersed in the new standards since their inception Blended learning experiences for teachers and leaders that enrich and extend the learning A train the trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches Writing Learning Stations, Grades 6 - 8 Schyrlet Cameron,Suzanne Myers,2013-01-02 Writing Learning Stations is perfect for center activities whole class instruction or individual assignments Topics includes inference proofreading editing compare and contrast and more The Learning Stations series increases student achievement and provides opportunities for inquiry with a variety of learning stations Aligned to Common Core State Standards each of the activities included also support Listening Speaking and Media Technology standards Make learning fun today with Learning Stations Writing Is Magic, Or Is It?
