Xenophon And Arrian On Hunting Classical Texts Ancient Greek Edition:

Xenophon and Arrian, On Hunting (Kynēgetikos) Xenophon, A. A. Phillips, Malcolm M. Willcock, 1999-01-01 As hunting generates such fierce debate in Britain today it seems an appropriate moment to examine the two best classical works on the subject For both authors hunting was primarily for hares with hounds Xenophon describes the establishment needed how to use it in the field and justifies hunting as the first part of education and the best training for war Arrian's treatise some five hundred years later is a commentary on Xenophon's to bring it up to date as he says He describes the revolution in hunting that the introduction of gaze hounds had caused and many charming anecdotes about his hunting experiences and his favourite hound Both give a vivid picture of the daily life of two wealthy Greeks at leisure which the modern huntsman will find familiar The Greek texts are given along with an English translation and commentary Includes a good illustrated introduction *A History of Classical Greek Literature* John Pentland Mahaffy, 1890 *A History of Classical Greek Literature* Sir John Pentland Mahaffy, 1883 **A History of Classical Greek Literature** J. P. Mahaffy, 2025-09-28 Reprint of the original first published in 1883 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **A History of Classical Greek Literature** John Pentland Mahaffy, 2025-07-23 Reprint of the original first published in 1880 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **Arrian the Historian** Daniel W. Leon, 2021-04-20 During the first centuries of the Roman Empire Greek intellectuals wrote a great many texts modeled on the dialect and literature of Classical Athens some 500 years prior Among the most successful of these literary figures were sophists whose highly influential display oratory has been the prevailing focus of scholarship on Roman Greece over the past fifty years Often overlooked are the period's historians who spurned sophistic oral performance in favor of written accounts One such author is Arrian of Nicomedia Daniel W Leon examines the works of Arrian to show how the era's historians responded to their sophistic peers' claims of authority and played a crucial role in theorizing the past at a time when knowledge of history was central to defining Greek cultural identity Best known for his history of Alexander the Great Arrian articulated a methodical approach to the study of the past and a notion of historical progress that established a continuous line of human activity leading to his present and imparting moral and political lessons Using Arrian as a case study in Greek historiography Leon demonstrates how the genre functioned during the Imperial Period and what it brings to the study of the Roman world in the second century *A History of Classical Greek Literature: The prose writers (with an index to both vols.)* John Pentland Mahaffy, 1880 *pt.II. The prose writers, from Isocrates to Aristotle* John Pentland Mahaffy, 1880 *A History of Classical Greek Literature: pt. I.
