The Child in British Literature A. Gavin,2012-02-20 The first volume to consider childhood over eight centuries of British writing this book traces the literary child from medieval to contemporary texts Written by international experts the volume s essays challenge earlier readings of childhood and offer fascinating contributions to the current upsurge of interest in constructions of childhood

A Reading of Violence in Partition Stories from Bengal Suranjana Choudhury,2020-07-20 This book engages with diverse modes of representations of Partition violence and its consequences in a selection of Partition narratives from Bengal Violence constitutes one of the most obvious images of this traumatic period in Indian history Its dynamics of representation the nature of violence its impact on society and the individual the forms of its socio cultural and political implanting invariably highlight the aesthetic sensibility of its writers The book questions if it is possible to qualify violence with all its complexities and examines how these narratives offer a critique of historical and political engagements with violence The experiences of suffering pain trauma affliction torture fear and betrayal are also constituted within the structural analysis of violence

Literature and Culture in Modern Britain: Volume Three Clive Bloom,Gary Day,2014-06-11 British culture has changed almost beyond recognition since 1956 Angry young men have been displaced by Yuppies Elvis by the Spice Girls and meat and two veg by continental cuisine What is more as the death of Diana Princess of Wales showed the British are now more famous for a trembling lower lip than a stiff upper one This volume the last in the series examines the transformations in literature and culture over the last forty years An introductory essay provides a

context for the following chapters by arguing that although there have been significant changes in British life there are also profound continuities It also discusses the rise of theory and its impact on the humanities Each essay in the volume concentrates on a facet of British culture over the last half century from painting to poetry from the seriousness of the novel to the postmodern ironies of the computing age What we get from this selection is not only an informed history of the relations between literature and culture but also a lively sense of cultural change not least of which is the new found relationship between literature and other arts which ushers us into the new millennium
