Violence Society And The Church A Cultural Approach:

Violence, Society, and the Church Gerald A. Arbuckle, 2007 *Culture, Inculturation, and Theologians* Gerald A. Arbuckle, 2010-09-01 The split between the Gospel and culture is without doubt the drama of our time wrote Paul VI in 1975 Since that time there has been an increasingly urgent awareness that inculturation is an indispensable task of the church But inculturation the dialogue between church and cultures demands first of all that we who would enter into the dialogue understand what culture itself means and what dialogue entails To that end cultural anthropologist Father Gerald Arbuckle gives us this important volume He traces the history of the development of the concept of culture and the too often negative rarely positive effects of encounters between church and culture He explores how Jesus Christ approached the cultures of his time and outlines the current treatment of culture and inculturation in church documents and in Catholic theology He shows that modest progress in understanding has recently stalled and there are even forces working to turn that progress into regress He concludes with a description of inculturation as it needs to happen and a sharp critique of those who resist With a sense of prophetic hope Arbuckle seeks to help us bridge the lamentable split between Gospel and culture the drama that continues to unfold in our time René Girard and Secular Modernity Scott Cowdell, 2015-11-30 In René Girard and Secular Modernity Christ Culture and Crisis Scott Cowdell provides the first systematic interpretation of René Girard's controversial approach to secular modernity Cowdell identifies the scope development and implications of Girard's thought the centrality of Christ in Girard's thinking and in particular Girard's distinctive take on the uniqueness and finality of Christ in terms of his impact on Western culture In Girard's singular vision according to Cowdell secular modernity has emerged thanks to the Bible's exposure of the cathartic violence that is at the root of religious prohibitions myths and rituals In the literature the psychology and most recently the military history of modernity Girard discerns a consistent slide into an apocalypse that challenges modern ideas of romanticism individualism and progressivism In the first three chapters Cowdell examines the three elements of Girard's basic intellectual vision mimesis sacrifice biblical hermeneutics and brings this vision to a constructive interpretation of secularization and modernity as these terms are understood in the broadest sense today Chapter 4 focuses on modern institutions chiefly the nation state and the market that function to restrain the outbreak of violence And finally Cowdell discusses the apocalyptic dimension of Girard's theory in relation to modern warfare and terrorism Here Cowdell engages with the most recent writings of Girard particularly his *Battling to the End* and applies them to further conversations in cultural theology political science and philosophy Cowdell takes up and extends Girard's own warning concerning an alternative to a future apocalypse What sort of conversion must humans undergo before it is too late The Francis Factor and The People of God Arbuckle, Gerald A., 2015-04-01 **The Underground Church** Kathleen Kautzer, 2012-03-02 Drawing on theories of religious movements and nonviolent resistance strategies this book analyzes the Reform Movement of liberal American Catholics who for over four decades have sustained a movement to expand on the
