Virtues And Practices In The Christian Tradition Christian Ethics After MacIntyre:

Virtues & Practices in the Christian Tradition Nancey C. Murphy, Brad J. Kallenberg, Mark Nation, 1997 Includes articles on family virtues homosexuality abortion pacifism racism feminism and business ethics and Christian economy **An Analysis of Alasdair MacIntyre's After Virtue** Jon W. Thompson, 2017-07-05 Alasdair MacIntyre's 1981 *After Virtue* was a ground breaking contribution to modern moral philosophy Dissatisfied with the major trends in the moral philosophy of his time MacIntyre argued that modern moral discourse had no real rational basis Instead he suggested if one wanted to build a rational theory for morality and moral actions one would have to go all the way back to Aristotle To build his arguments which are widely acknowledged to be as important as they are complex MacIntyre relies on two critical thinking skills above all others evaluation and interpretation The primary goal of evaluation is to judge the strength or weakness of arguments asking how acceptable a given line of reasoning is and how adequate it is to the situation In *After Virtue* MacIntyre applies incisive evaluation skills to major positions and figures in moral philosophy one after the other showing how and why Aristotle's template remains a stronger way of considering moral questions Throughout this process MacIntyre also relies on his interpretative skills As MacIntyre knows clarifying meanings questioning definitions and laying down definitions of his key terms is as vital to advancing his arguments as it is to evaluating those of other philosophers **Christian Ethics** Steve Wilkens, 2017-06-27 Steve Wilkens edits a conversation between four major approaches to contemporary ethics in the Christian tradition virtue divine command natural law and prophetic This accessible introduction includes contributions by Brad Kallenberg John Hare Claire Peterson and Peter Heltzel **The Blackwell Companion to Christian Spirituality** Arthur Holder, 2011-04-27 *The Blackwell Companion to Christian Spirituality* is a comprehensive single volume introduction to Christian spirituality and represents the most significant recent developments in the field Offers a thoroughly interdisciplinary broadly ecumenical and representative overview of the most significant recent developments in the field Comprises essays combining rigorous academic scholarship with accessible and elegant writing Reflects an understanding of the field as the study of the lived experience of Christian faith and discipleship Provides material on biblical historical and theological foundations along with treatment of contemporary issues Love and Politics Jeffery L. Nicholas, 2021-06-07 In *Love and Politics* Jeffery L. Nicholas argues that Eros is the final rejection of an alienated life in which humans are prevented from developing their human powers Eros in contrast is an overflowing of acting into new realities and new beauties a world in which human beings extend their powers and senses Nicholas uniquely interprets Alasdair MacIntyre's Revolutionary Aristotelianism as a response to alienation defined as the divorce of fact from value However this account cannot address alienation in the form of the oppression of women or people of color Importantly it fails to acknowledge the domination of nature that blackens the heart of alienated life Alienation must be seen as a separation of the human from nature Nicholas turns to Aristotle first to uncover the way his philosophy embodies a divorce of human from nature then to reconstruct the

essential elements of Aristotle's metaphysics to defend a philosophical anthropology based on Eros Love and Politics Persistent Human Desires as a Foundation for Liberation presents a critical theory that synthesizes MacIntyre's Revolutionary Aristotelianism Frankfurt School Critical Theory and Social Reproduction Theory It will be of great interest to political theorists and philosophers **Practicing to Aim at Truth** Ryan Andrew Newson, Brad J. Kallenberg, 2015-10-16 Beginning with her award winning book *Theology in the Age of Scientific Reasoning* 1990 Nancey Murphy has used philosophy of science as a way into and catalyst for fresh thinking in cosmology divine action epistemology cognitive neuroscience theological anthropology philosophy of mind and Christian virtue ethics The essays in this book written by her students and colleagues creatively honor Murphy by extending a number of her core insights within their respective disciplines An introduction provides both an account of Murphy's unique location an Anabaptist teaching at an evangelical graduate institution and a summary of her contributions to theology as a philosopher of science whose corpus more than any other epitomizes the paradigm shift in philosophy sometimes called Anglo American postmodernity Subsequently fourteen essays provide unique engagements with Murphy on subjects including divine action the interaction between science and theology epistemology the nature of humanity and political theology In its entirety *Practicing to Aim at Truth* provides the first in depth interaction with and extension of Nancey Murphy's unique school of thought providing a resource both for those wishing to extend her research program as well as those wishing to understand it charitably in order to critique it

method the book offers an original analysis of the latter's thought that will be of interest to scholars of early Islam and classical Sufism as well as moral theologians interested in virtue ethics, character and friendship. *Re-membering the Body*
Scott W. Bullard, 2013-11-01 For centuries Baptists have regarded the Eucharist or Lord's Supper as merely symbolic rather than as sacramental. Historically speaking Baptists have also participated in the practice of the Supper less frequently than other Christian groups, all the while lodging complaints about a lack of ecclesial unity. In response to these trends this book argues for a sacramental understanding of the Eucharist and focuses on the way in which the Eucharist conveys grace by drawing the church together as the body of Christ. It focuses especially on the theology of James Wm McClendon Jr who was Baptist but nonetheless illustrated that through the Eucharist God re-members the church as the body of Christ. Together with Lutheran theologian Robert Jenson and Catholic theologian Cardinal Henri de Lubac McClendon's work has had an enormous impact on contemporary free church discussions about the Supper and ecclesial unity. In a final chapter therefore the study examines a number of contemporary Baptists dubbed the new Baptist sacramentalists. These men and women are influenced by McClendon, Jenson and de Lubac and they offer a fresh approach to the ongoing puzzle of the church's disunity through the Eucharist.
