Visibility In Social Theory And Social Research:

Visibility in Social Theory and Social Research A. Mubi Brighenti, 2010-07-21 What is social visibility How does it affect people and public issues How are visibility regimes created organized and contested Tackling both social theory and social research the book is an exploration into how intervisibilities produce crucial sociotechnical and biopolitical effects The Transparency Paradox Ida Koivisto, 2022 Transparency has become an unquestionable good in modern society spreading from its origins in governance to most arenas of the modern world But is it always good This book turns a critical eye towards transparency deconstructing its theoretical preconceptions and seeking a more nuanced view of what it means to be transparent *Media Activism, Artivism and the Fight Against Marginalisation in the Global South* Andrea Medrado, Isabella Rega, 2023-05-26 This book analyses a South to South connection between media activists and artists who are activists in the Global South The authors Andrea Medrado and Isabella Rega emphasise the urgent need to engage in South to South dialogues in order to create more sustainable connections between Global South communities and as an essential step towards identifying and facing global problems such as state repression social inequality and climate crises Medrado and Rega analyse the characteristics of this connection identify its unique contributions to the study of media and social change and discuss its long term sustainability They do so by focusing on instances when media narratives in countries of different Global South s intertwine and transform each other specifically the exchanges between Latin America Brazil and Africa Kenya They explore how media activism and artivism can be used as tools for global movement building and to challenge colonial legacies They also discuss how to connect people with varied skill sets in different Global South contexts promoting South to South solidarity in a cross continental challenge to marginalisation Crucial reading for students and scholars of media activism social movements global media and communication development studies and international studies as well as activists and social movement organisations *Transparency and Critical Theory* Jorge I. Valdovinos, 2022-02-26 This book takes an interdisciplinary approach to the critique of contemporary ideology offering an innovative genealogy of one of its most fundamental discursive manoeuvres the ideological effacement of mediation Providing a comprehensive historical revision of media from the Greeks to the Internet this book identifies several critical junctures at which the tension between visibility and invisibility has overlapped with conceptions of neutrality a tension best incarnated in today s use of the word transparency Then it traces this term s evolving semantic constellation through a variety of intellectual discourses exposing it as a key operator in the revaluation of ideals sensibilities and modalities of perception that lie at the core of our contemporary attention based economy **Urban Interstices: The Aesthetics and the Politics of the In-between** Andrea Mubi Brighenti, 2016-02-11 Bringing together a team of international scholars with an interest in urban transformations spatial justice and territoriality this volume questions how the interstice is related to the emerging processes of partitioning enclave making and zoning showing how in between spaces are intimately related to larger flows networks

territories and boundaries Illustrated with a range of case studies from places such as the US Quebec the UK Italy Gaza Iraq India and South east Asia the volume analyses the place and function of interstitial locales in both a disciplined urban space and a disordered space conceptualized through the notions of excess danger and threat Warning not to romanticize the interstice the book invites us to study it as not simply a place but also a set of phenomena events and social interactions How are interstices perceived and represented What is the politics of visibility that is applied to them How to capture their peculiar rhythms speeds and affects On the one hand interstices open up venues for informality improvisation challenge and bricolage playful as well as angry statements on the neoliberal city and enhanced urban inequalities On the other hand they also represent a crucial site of governance even governance by withdrawal and urban management where an array of techniques ranging from military urbanism to new forms of value extraction are experimented At the point of convergence of all these tensions interstices appear as veritable sites of transformation where social forces clash and mesh prefiguring our urban future The book interrogates these territories proposing new ways to explore the dynamics events and visibilities that define them

Media and the Image of the Nation during Brazil's 2013 Protests César Jiménez-Martínez, 2020-04-30 This book explores the struggles over the mediated construction and projection of the image of the nation at times of social unrest Focussing on the June 2013 protests in Brazil it examines how different actors authorities activists the national media foreign correspondents disseminated competing versions of what Brazil was during that pivotal episode The book offers a fresh conceptual approach supported by media coverage analysis and original interviews that demonstrates the potential of digital media to challenge power structures and establish new ways of representing the nation It also highlights the vulnerability of both old and new media to forms of inequality and disruption due to political interferences technological constraints and continuing commercial pressures Contributing to the study of media and the nation as well as media and social movements the author throws into sharp relief the profound transformation of mediated nationhood in a digital and global media environment

Settlements and Displacement in Turkey Özlem Erdoğan Erkarlan, Ela Alanyalı Aral, 2023-09-29 This book explores the complex relationship between urban space and displacement in Turkey It evaluates how the displacement of people and cultures has affected the spatiotemporal landscapes of the nation at different periods of contemporary Turkey with an emphasis on various narratives of the relocating population and their relationship to the environment Contemporary cities are constantly changing due to the movement of people from different regions resulting in shifting population patterns globally Understanding displacement and its effects on space are crucial in studying this phenomenon as it not only involves the physical relocation of individuals but also the transfer of cultural practices within a condensed timeframe This process changes the destination of settlements irreversibly This book takes a methodological approach and disciplinary approach examining the migration and displacement of people and its effects upon art architecture culture and politics in Turkish cities This book will be of interest to students and scholars interested in migration and its

Exclusion and Inclusion in International Migration: Power,

Resistance and Identity Armağan Teke Lloyd, 2019-04-30 People on the move face new barriers in a globalizing world Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants Notwithstanding the forces of globalization states have maintained their monopoly power over whom to admit and whom to deny within their borders In other words they remain the sovereign authority regulating the entry and exit of people However in recent years a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism instability and criminality The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced These assumptions correspond with a real policy shift in some countries such as the United States where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants although the focus is largely on the former Despite the fact that most of the empirical studies are drawn from within Europe the book also includes research on Nepal Australia the Middle East and Japan in order to reveal the truly global dimensions of migration and the regimes governing this Content INTRODUCTION by Arma an Teke Lloyd PART A Ideology and Governance of Migration CHAPTER 1 Coming to Terms with Liberal Democracy by the Populist Radical Right Parties of Western Europe Evidence from European Parliament Speeches over Minorities and Migration by Caner Tekin CHAPTER 2 A Forest with many trees Mapping migration governance and the dispersion of authority in Europe by Lisa Marie Borrelli Rebecca Mavin and Giorgia Trasciani CHAPTER 3 Policing Migrants in Transit and Upon Arrival The Bordering Tactic of Integration in Austria and Germany by Olivia Johnson PART B Regulations Suspension of Human Rights CHAPTER 4 Borders Exception and Sovereignty Australia s Migration Policies as Instruments of Suspension of Human Rights and International Obligations by Ana Carolina Macedo Abreu CHAPTER 5 Power and Sandwiched Sovereignty Nepali Migrant Workers in the Gulf Countries by Hari KC CHAPTER 6 The Body and Embodied Experiences in the British Asylum System Developing a Conceptual Perspective by Rebecca Mavin CHAPTER 7 Eritrean Unaccompanied Refugee Minors in The Netherlands Wellbeing and Health by Anna de Haan Yodit Jacob Trudy Mooren and Winta Ghebreab PART C Migrants Strategies and Identities CHAPTER 8 Social Inclusion Processes for unaccompanied minors in the city of Palermo Fostering Autonomy through a New Social Inclusion Model by Roberta Lo Bianco and Georgia Chondrou CHAPTER 9 Urban Resistances and Migrant Activism Challenging the Border Regime in Madrid City by Ana Santamarina and Almudena Cabezas CHAPTER 10 RefConnect A Mobile Social Network for Refugees by Evdokia Kogia Styliani Liberopoulou Nikolaos Alamanos Vasilis Pierros and Christos Michalakelis CHAPTER 11 Halo Halo
