**A Century of Miracles** H. A. Drake, 2017-08-01 The fourth century of our common era began and ended with a miracle Traditionally in the year 312 the Roman emperor Constantine experienced a vision of the

Cross that led him to convert to Christianity and to defeat his last rival to the imperial throne and in 394 a divine wind carried the emperor Theodosius to victory at the battle of the Frigidus River Other stories heralded the discovery of the True Cross by Constantine's mother Helena and the rise of a new kind of miracle maker in the deserts of Egypt and Syria These miracle stories helped Christians understand the dizzying changes they experienced in the fourth century Far more than the outdated narrative of a life and death struggle between Christians and pagans they help us understand the darker turn Christianity took in subsequent ages In A Century of Miracles historian H A Drake explores the role miracle stories played in helping Christians pagans and Jews think about themselves and each other These stories he concludes bolstered Christian belief that their god wanted the empire to be Christian Most importantly they help explain how after a century of trumpeting the power of their god Christians were able to deal with their failure to protect the city of Rome from a barbarian sack by the Gothic army of Alaric in 410 Augustine's magnificent City of God eventually established a new theoretical basis for success but in the meantime the popularity of miracle stories reassured the faithful even when the miracles came to an end Thoroughly researched within a wide range of faiths and belief systems A Century of Miracles provides an absorbing illumination of this complex polytheistic and decidedly mystical phenomenon

**Babylonian Jews and Sasanian Imperialism in Late Antiquity** Simcha Gross,2024-03-27 From the image offered by the Babylonian Talmud Jewish elites were deeply embedded within the Sasanian Empire 224 651 CE The Talmud is replete with stories and discussions that feature Sasanian kings Zoroastrian magi fire temples imperial administrators Sasanian laws Persian customs and more quotidian details of Jewish life Yet in the scholarly literature on the Babylonian Talmud and the Jews of Babylonia the Sasanian Empire has served as a backdrop to a decidedly parochial Jewish story having little if any direct impact on Babylonian Jewish life and especially the rabbis

Babylonian Jews and Sasanian Imperialism in Late Antiquity advances a radically different understanding of Babylonian Jewish history and Sasanian rule Building upon recent scholarship Simcha Gross portrays a more immanent model of Sasanian rule within and against which Jews invariably positioned and defined themselves Babylonian Jews realized their traditions teachings and social position within the political social religious and cultural conditions generated by Sasanian rule
