Vivas And Communication Skills In Surgery 1e Mrcs Study Guides:

Vivas and Communication Skills in Surgery Kathryn McCarthy, Matthew Hacking, Ragheed Al Mufti, Jonathan Hewitt, 2004
The viva component of the MRCS examination is traditionally the most feared and elusive part of the whole exam. Contained within the syllabus of core and system modules there are favourite examination topics which are more commonly asked than others. This new book covers all these popular subjects and illustrates them with sample viva style questions. The answers give the candidate guidance on how to respond to these effectively and on what is required to pass the exam. This new book has been written to aid any candidate in preparing to sit a surgical viva and will be of value to MRCS candidates as well as students for undergraduate surgical finals and surgical registrars prior to the exit examination. Covers the six major subject areas of the MRCS viva exam: applied surgical anatomy, operative surgery, clinical pathology, principles of surgery, applied physiology and critical care. Includes coverage of the new communication skills section designed to test the candidate's ability to communicate with patients and supply information to colleagues. Provides over 160 viva topics with subsidiary questions in the style of the exam. Targets the hardest part of the exam which has the lowest pass rate. **The Insider's**

Guide to the MRCS Clinical Examination Jonathan Fishman, Rajat Chowdhury, Vivian Elwell, 2008-12-25
The MRCS Clinical Examination is the final requirement to obtain the professional qualification for the Intercollegiate Membership of the Royal College of Surgeons. This Membership allows the transition from doctor to surgeon and a career in higher surgical training. This standardised clinical examination requires candidates to demonstrate their ability in examining patients with effective and clear communication. The authors should be commended on producing a book that covers all clinical sections of the Examination in such a concise, comprehensive and structured manner. This study guide will serve as your personal tutor, working closely with you, prompting and providing pointers to improve your examination technique. It includes dozens of clinical scenarios demonstrating how to examine the system and avoid common mistakes. In addition, the candidates can improve their communication skills, which is an integral part of this Examination. This book complements the Insider Medical MRCS Clinical Course. It simulates the actual test conditions by providing sample cases and answers, coupling identification of weaknesses and strengths. This book will also prove to be extremely valuable for the new style MRCS OSCE. Nigel Mendoza in his Foreword. **The British National Bibliography** Arthur James Wells, 2006. Questions for the MRCS Vivas Jeff Garner, 2004
The Viva Voce is a particularly difficult element of the MRCS exam since candidates will be tested across a broad range of topics in surgery, pathology, critical care and basic science and also as candidates are unsure what to expect or how to prepare for such an exam. *Questions for the MRCS Viva* is an essential guide to sitting and passing the Viva Voce part of the MRCS exam.
