The Reckoning Prit Buttar,2020-10-29 The Reckoning is vivid history the tragic Eastern Front brought to life through the widest range of Russian and German sources I ve ever read Bravo Peter Caddick Adams author and broadcaster From critically acclaimed Eastern Front expert Prit Buttar The Reckoning is a masterful re evaluation of the fateful year of 1944 and how the Red Army irrevocably turned the tide of war until the final defeat within the heart of Germany itself was guaranteed The fighting throughout the Ukraine and Romania was brutal with the German defence dogged and desperate But for too long the Wehrmacht had relied on the superior combat prowess of its fighting men What had not been taken into account however was that the Red Army would not only rely on its sheer size but would fine tune its fighting performance from its senior commanders right down to the individual soldier battling both fear and the elements to take each line each trench each inch of land Ultimately it is a story not of how the Germans lost as is all too often told but of how the Russians increasingly learned how to win
