Let's Talk Mark Overmeyer, 2023-10-10 When it comes to increasing student motivation and success in writing, classroom talk is a powerful tool. More than simply providing assessment data for predetermined standards, talking with our students builds relationships and a community where students rely on one another, not just their teacher, for advice, affirmation, and support. Let's Talk: Managing One-on-One, Peer, and Small Group Conferences, author Mark Overmeyer provides real classroom examples and stories to help educators make conferences more manageable and meaningful. Organized by types of conferences, Let's Talk distinguishes between teacher-student talk, which covers one-on-one, small group, and whole class conferences, and student-student talk, which includes one-on-one and group peer conferences. In addition to addressing the challenges and needs of teachers, coaches, principals, and staff developers in the elementary and middle level grades, Overmeyer also focuses on how to work with English language learners. Throughout the book, Overmeyer describes how classroom talk benefits students in a variety of ways, from discovering their interests and backgrounds as writers to helping them develop the language to reflect on their writing progress.

Choice and Agency in the Writing Workshop Fred Hamel, 2017-04-21 Step into a classroom and listen in on the writing initiatives and motivations of students who are given significant choice and agency in the development of their writing. Discover why upper elementary children need ways to become literate as kids, not merely as prototypes of adults or teenagers. Filled with rich portraits of in-class writing interactions and challenges, this book highlights various themes that help teachers become better observers and more responsive to the complexity of writing in children's lives. Key themes include drawing and popular media in children's learning, the challenges of listening to students during conferences, the intersections of writing and relationships, the roles of sharing and publishing writing, and the importance of shaping a writing curriculum through dialogue. Fred Hamel not only offers us readers insight into the text-mediated dramas of children's lives; he allows us into the sort of pedagogical reflections that keep us all in the flow of becoming. From the Foreword by Anne Haas Dyson, University of Illinois. This timely book is about the experimentation, flexibility, vulnerabilities, and risks of educators when they don't assume to always know what is best for writers. Through classroom examples, Hamel helps us to see the complex and entangled identities of teachers and students. This book asks us all to consider putting less emphasis on expected writing endpoints and think more about the social processes and relationships of literacies coming to be. Candace R. Kuby, University of Missouri and author of *Go Be a Writer: Expanding the Curricular Boundaries of Literacy Learning with Children*.
