Writing About The Humanities 3rd Edition:

Writing about the Humanities Robert DiYanni, 1999-10 *Writing About the Humanities* is a reader friendly handbook designed to guide students through the writing process. Designed primarily for use in introductory humanities courses, this text helps students write about specific disciplines including art and architecture, music, fiction and poetry, drama and theater, and dance and film. Highlights of this revision include a new oral presentation guide, new content on film, dance, sculpture, and architecture, and new student essays on sculpture and architecture. Book jacket *Academic Writing, Third Edition* Steven C. Roe, Pamela H. den Ouden, 2018-04-26 Now in its third edition, *Academic Writing* offers a succinct and practical introduction to the development of research papers across the disciplines. Structured around contemporary genre theory, which establishes the importance of context for effective communication, the text describes the writing process step by step, including how to formulate a topic, gather and properly document sources, develop strong proposals, introductions, core paragraphs, and conclusions, and refine the final draft. Additionally, readers will observe the progress and thought processes of Jenna, a first-year student, as she crafts her own paper. New to this edition are materials for instructors that include full-length research papers, PowerPoint slides, an exam bank, and ideas for study. Rich with such pedagogical features as chapter learning objectives, annotated passages that illustrate aspects of academic style, and a glossary, *Academic Writing* is a must-have textbook for students developing their research and writing skills. *Academic Writing - Third Edition* Janet Giltrow, 2002-03-21 *Academic Writing* is a unique introduction to the subject. As the author puts it in her preface, this book develops from a strong claim, namely, that style is meaningful. In developing that theme, the author draws meaningfully on theory, especially genre theory, while remaining grounded in the particular. Giltrow presents and discusses examples of actual academic writing of the sort that students must learn to deal with daily and to write themselves. As newcomers to the scholarly community, students can find that community's ways of reading and writing mysterious, unpredictable, and intimidating. *Academic Writing* demystifies the scholarly genres, shedding light on their discursive conventions and on academic readers' expectations and values. Throughout, *Academic Writing* respects the student writer; it engages the reader's interest without ever condescending, and it avoids the arbitrary and the dogmatic. The book also offers abundant exercises to help the student develop techniques for working productively at each stage of the scholarly writing process: mastering and summarizing difficult scholarly sources, planning and revising to create good working conditions for the reader. The third edition of Giltrow's extremely successful book incorporates extensive revisions that integrate the theoretical perspectives of genre theory into the whole of the book in a more organic fashion; the changes are designed to make the book both more attuned to scholarly practice and more accessible to the undergraduate student. Giltrow's *Academic Reading* is designed as an accompanying reader for *Academic Writing*. **Academic Writing: An Introduction - Third Edition** Janet Giltrow, Richard Gooding, Daniel Burgoyne, Marlene Sawatsky, 2014-09-03 *Academic Writing* has been widely acclaimed in all

Writing the Body Politic Mark Featherstone, Thomas Kemple, 2019-08-08 This book brings together key essays from the career of social theorist John O'Neill including his uncollected later writings focusing on embodiment to explore the different ways in which the body trope informs visions of familial economic personal and communal life Beginning with an exploration of O'Neill's work on the construction of the biobody and the ways in which corporeality is sutured into social systems through regimes of power and familial socialisation the book then moves to concentrate on O'Neill's career long studies of the

productive body and the ways in which the working body is caught in and resists disciplinary systems that seek to rationalise natural functions and control social relations The third section considers O'Neill's concern with the ancient early modern and psychoanalytic sources of the post modern libidinal body and a final section on the civic body focuses specifically on the ways in which principles of reciprocity and generosity exceed the capitalist individualist body of neo liberal political theory The volume also includes an interview with O'Neill addressing many of the key themes of his work a biographical note with an autobiographical postscript a select bibliography of O'Neill's many publications and an extensive introduction by the editors A challenging and innovative collection *Writing the Body Politic: A John O'Neill Reader* will appeal to critical social theorists and sociologists with interests in the work of one of sociology's great critical readers of classical and contemporary texts
