Xbrl For Interactive Data Engineering The Information Value Chain:

XBRL for Interactive Data Roger Debreceeny, Carsten Felden, Bartosz Ochocki, Maciej Piechocki, Michal Piechocki, 2009-06-18 Interactive data supports organizations to communicate effectively with their stakeholders and partners on the Internet and the World Wide Web XBRL eXtensible Business Reporting Language is a key enabling technology for interactive data XBRL links organizations and knowledge consumers in a variety of information value chains XBRL is now in use in many countries and important settings This book provides for the first time an in depth analysis of XBRL Thorough and up to date this book explains the most popular constructs in XML on which XBRL builds and XBRL The book provides business and policy makers technologists and information engineers with an essential toolkit to understand the complete implementation of XBRL The book begins with an overview of the business case for interactive data and XBRL There is an introduction to XML and XBRL and the design and construction of XBRL taxonomies including extensions and multi dimensional XBRL implementations It provides a detailed analysis of the interaction of instance documents and taxonomies The book also provides a synopsis of the most current XBRL technologies Network, Smart and Open Rita Lamboglia, Andrea Cardoni, Renata Paola Dameri, Daniela Mancini, 2018-02-04 This book presents a collection of original research papers addressing the relationship between information systems IS and innovation Open Smart and Network are three keywords that are currently guiding information systems IS innovation enhancing IS potentialities and their ability to support decision making processes The book discusses the relevance of these three new concepts in connection with technological and organizational innovations i e cloud smart technologies and networking and the role they play in the development of accounting and management information systems The book s primary aim is to investigate how these innovations could influence information systems with a particular focus on accounting and management information systems by enhancing their information potentialities and improving accounting methodologies performance measurement systems data management information systems architectures and external and internal reporting The book is based on a selection of the best papers original double blind reviewed contributions presented at the 2016 Annual Conference of the Italian Chapter of the Association for Information Systems AIS **Innovative Perspectives on Public Administration in the Digital Age** Manoharan, Aroon P., McQuiston, James, 2018-05-25 As governments worldwide are entering the digital age there are increasing expectations from citizens and stakeholders for a more responsive efficient and open government Innovations in information technology and web technologies can facilitate these changes Innovative Perspectives on Public Administration in the Digital Age is a critical scholarly resource that examines the prevalence of e government and the advancements of information systems to facilitate a government that is more open and accessible to citizens and businesses Highlighting coverage on a broad range of topics such as online civic engagement e petition and privacy and security this publication is geared toward academicians practitioners and government officials seeking current and relevant research on the use of

online and technological systems for the advancement of government and public policy *Information in Motion:: The Journal Issues in Informing Science and Information Technology (Volume 7)* Eli Cohen,2010 *IT and the Development of Digital Skills and Competences in Education* Ordóñez de Pablos, Patricia,Lytras, Miltiadis D.,Zhang, Xi,2020-10-16 Digital technologies are transforming economies and societies around the world As such markets demand new types of skills and competences that students must learn in order to be successful IT and emerging technologies can be integrated into educational institutions to improve teaching methods and academic results as well as digital literacy IT and the Development of Digital Skills and Competences in Education compiles critical research into one comprehensive reference source that explores the new demands of labor markets in the digital economy how educational institutions can respond to these new opportunities and threats the development of new teaching and learning methods and the development of digital skills and competences Through new theories research findings and case studies the book seeks to incite new perspectives to understandings of the challenges and opportunities of the utilization of IT in the education sector around the world Due to innovative topics that include digital competence disruptive technologies and digital transformation this book is an ideal reference for academicians directors of schools vice chancellors education and IT experts CEOs policymakers in the field of education and IT researchers and students Conference Proceedings Trends in Business Communication 2016 Timo Becker,Peter Schneckenleitner,Wolfgang Reitberger,Alexandra Brunner-Sperdin,2017-02-07 These proceedings focus on selected aspects of the current and upcoming trends in business communication In detail the included scientific papers analyse and describe communication processes in the fields of sports finance culture politics brand management and corporate communications The variety of the papers delivers added value for both scholars and practitioners This book is the documentation of the symposium Trends in Business Communication which took place at the University of Applied Sciences in Kufstein Tyrol E-Government Services Design, Adoption, and Evaluation Weerakkody, Vishanth,2012-11-30 With the widespread knowledge and use of e government the intent and evaluation of e government services continues to focus on meeting the needs and satisfaction of its citizens E Government Services Design Adoption and Evaluation is a comprehensive collection of research on assessment and implementation of electronic digital government technologies in organizations This book aims to supply academics practitioners and professionals with the understanding of e government and its applications and impact on organizations around the world **Digital Age: Chances, Challenges and Future** Svetlana Igorevna Ashmarina,Marek Vochozka,Valentina Vyacheslavovna Mantulenko,2019-07-27 This proceedings book presents the outcomes of the VII International Scientific Conference Digital Transformation of the Economy Challenges Trends New Opportunities which took place in Samara Russian Federation on April 26 27 2019 Organized by the Samara State University of Economics the conference chiefly focused on digital economy issues such as theoretical preconditions for the development of economic systems in the digital age and specific practical issues related to real world business practice Consisting of six chapters

corresponding to the thematic areas of the conference and written by scientists and practitioners from different regions of Russia Kazakhstan the Czech Republic and Germany the book offers answers to the most pressing questions for today s business community How is our world changing under the influence of digital technology Is sustainable economic development a myth or reality in the context of digitalization What threats and opportunities does digitalization bring What are realities and prospects of digitalization in the context of business practice How do we create a digital infrastructure for the economy How should the legal environment of the economy be transformed in the context of digitalization The conclusions and recommendations presented are not recipes for solving the existing economic problems but instead are intended for use in further research on transformation processes in the economy and in the development of state economic policies in various countries and regions **Electronic Government** Marijn Janssen,Hans Jochen Scholl,Maria A.

Wimmer,Yao-Hua Tan,2011-08-19 This book constitutes the refereed proceedings of the 10th International Conference EGOV 2011 held in Delft The Netherlands in August September 2011 The 38 revised full papers presented were carefully reviewed and selected from 84 submissions The papers are organized in topical sections on foundations acceptance and diffusion governance openness and institutions architecture security and interoperability transformation values and change The Routledge Companion to Accounting Communication Lisa Jack,Jane Davison,Russell Craig,2013-05-02 One of the prime purposes of accounting is to communicate and yet to date this fundamental aspect of the discipline has received relatively little attention The Routledge Companion to Accounting Communication represents the first collection of contributions to focus on the power of communication in accounting The chapters have a shared aim of addressing the misconception that accounting is a purely technical number based discipline by highlighting the use of narrative visual and technological methods to communicate accounting information The contents comprise a mixture of reflective overview stinging critique technological exposition clinical analysis and practical advice on topical areas of interest such as The miscommunication that preceded the global financial crisis The failure of sustainability reporting The development of XBRL How to cut clutter With an international coterie of contributors including a communication theorist a Big Four practitioner and accounting academics this volume provides an eclectic array of expert analysis and reflection The contributors reveal how accounting communications represent or misrepresent the financial affairs of entities thus presenting a state of the art assessment on each of the main facets of this important topic As such this book will be of interest to a wide range of readers including postgraduate students in management and accounting established researchers in the fields of both accounting and communications and accounting practitioners
