Thomas Hardy And The Survivals Of Time The Nineteenth Century Series:

The Feminist Sensibility in the Novels of Thomas Hardy Manjit Kaur, 2005 **The Ashgate Research Companion to Thomas Hardy** Rosemarie Morgan, 2016-03-23 In *The Ashgate Research Companion to Thomas Hardy* some of the most prominent Hardy specialists working today offer an overview of Hardy scholarship and suggest new directions in Hardy studies The contributors cover virtually every area relevant to Hardy's fiction and poetry including philosophy palaeontology biography science film popular culture beliefs gender music masculinity tragedy topography psychology metaphysics illustration bibliographical studies and contemporary response While several collections have surveyed the Hardy landscape no previous volume has been composed especially for scholars and advanced graduate students This companion is specially designed to aid original research on Hardy and serve as the critical basis for Hardy studies in the new millennium Among the features are a comprehensive bibliography that includes not only works in English but in acknowledgment of Hardy's explosion in popularity around the world also works in languages other than English **Thomas Hardy's Novel Universe** Pamela Gossin, 2017-03-02 In this the first book length study of astronomy in Hardy's writing historian of science and literary scholar Pamela Gossin brings the analytical tools of both disciplines to bear as she offers unexpected and sophisticated readings of seven novels that enrich Darwinian and feminist perspectives on his work extend formalist evaluations of his achievement as a writer and provide fresh interpretations of enigmatic passages and scenes In an elegantly crafted introduction Gossin draws together the shared critical values and methods of literary studies and the history of science to articulate a hybrid model of scholarly interpretation and analysis that promotes cross disciplinary compassion and understanding within the current contention of the science culture wars She then situates Hardy's own deeply interdisciplinary knowledge of astronomy and cosmology within both literary and scientific traditions from the ancient world through the Victorian era Gossin offers insightful new assessments of *A Pair of Blue Eyes* *Far from the Madding Crowd* *The Return of the Native* *Two on a Tower* *The Woodlanders* *Tess of the D'Urbervilles* and *Jude the Obscure* arguing that Hardy's personal synthesis of ancient and modern astronomy with mythopoetic and scientific cosmologies enabled him to write as a literary cosmologist for the post Darwinian world The profound new myths that comprise Hardy's novel universe can be read as a sustained set of literary thought experiments by which he critiques the possibilities limitations and dangers of living out the storylines that such imaginative cosmologies project for his time and ours *Estonian Pragmapoetics, from Poetry and Fiction to Philosophy and Genetics* Arne Merilai, 2023-10-18 This book outlines an innovative approach to the study of literature called pragmapoetics a philosophy of poetic utterances The book posits that studies are as much a branch of linguistics as they are of the philosophy of language and mind and considers the poetic self referential function a profound feature of life and intentionality As a structuralist thinker the author is drawn towards graphical definitions for their greater elucidative power This collection contains three sections General Poetics Pragmapoetics and Estonian and Comparative

Poetics consisting of nineteen of the author's works from 1996 up to 2022 which best represent his approach **Landscape and Gender in the Novels of Charlotte Brontë, George Eliot, and Thomas Hardy** Eithne Henson, 2011 Examining representations of physical and metaphorical landscape in Charlotte Brontë, George Eliot and Thomas Hardy Henson explores the way gender attitudes are expressed both in descriptions of physical and metaphorical landscape and in the idea of nature through the gendered voices of the narrators Henson looks at the influence of changing aesthetic theory arguing that factors such as scientific enquiry and industrialization changed the representation of landscape and of Englishness in these realist novels **The Routledge Research Companion to Nineteenth-Century British Literature and Science** John Holmes, Sharon Ruston, 2017-05-18 Tracing the continuities and trends in the complex relationship between literature and science in the long nineteenth century this companion provides scholars with a comprehensive authoritative and up to date foundation for research in this field In intellectual material and social terms the transformation undergone by Western culture over the period was unprecedented Many of these changes were grounded in the growth of science Yet science was not a cultural monolith then any more than it is now and its development was shaped by competing world views To cover the full range of literary engagements with science in the nineteenth century this companion consists of twenty seven chapters by experts in the field which explore crucial social and intellectual contexts for the interactions between literature and science how science affected different genres of writing and the importance of individual scientific disciplines and concepts within literary culture Each chapter has its own extensive bibliography The volume as a whole is rounded out with a synoptic introduction by the editors and an afterword by the eminent historian of nineteenth century science Bernard Lightman

Primitive Marriage Kathy Alexis Psomiades, 2023 What happens when another genre of writing lays claim to the novel's traditional subject of marriage This book shows how anthropology gave late Victorian novelists and social scientists ways of rethinking heterosexual romance by referring to a new kind of history of marriage systems sexual behavior and reproductive practices **Thomas Hardy: Folklore and Resistance** Jacqueline Dillon, 2016-09-23 This book reassesses Hardy's fiction in the light of his prolonged engagement with the folklore and traditions of rural England Drawing on wide research it demonstrates the pivotal role played in the novels by such customs and beliefs as overlooking hag riding skimmington riding sympathetic magic mumming bonfire nights May Day celebrations Midsummer divination and the Portland Custom This study shows how such traditions were lived out in practice in village life and how they were represented in written texts in literature newspapers county histories folklore books the work of the Folklore Society archival documents and letters It explores tensions between Hardy's repeated insistence on the authenticity of his accounts and his engagement with contemporary anthropologists and folklorists and reveals how his efforts to resist their excellently neat categories of culture open up wider questions about the nature of belief progress and social change [Franco-British Cultural Exchanges, 1880-1940](#) Andrew Radford, Victoria Reid, 2012-06-28 This volume focuses on the literary connotations of the Channel Packet
