Bownas examines the context of these references proposing that Hardy was a writer who not only posed a challenge to the whole of established society but one whose writings bring into question the very notion of empire Bownas argues that Hardy takes up ideas of the primitive and civilized that were central to Western thought in the nineteenth century contesting this opposition and highlighting the effect outsiders have on so called primitive communities In her discussion of the oppressions of imperialism she analyzes the debate surrounding the use of gender as an articulated category together with race and class and shows how in exposing the power structures operating within Britain Hardy produces a critique of all forms of ideological oppression Student Companion to Thomas Hardy Rosemarie

George Levine, 2017-05-09 This major new reading of the novels of Thomas Hardy by leading critic George Levine disentangles the author s often elaborately distanced prose from his beautiful poetic and precise renderings of the natural world Clear direct and minimally academic in his own writing Levine provides an overview of Hardy s entire fictional canon with extensive discussions of his early and late novels including his last The Well Beloved Levine draws new attention to the way Hardy absorbed both the ideas and the writing strategies of Charles Darwin and develops new perspectives first articulated in the criticism of great novelists in particular Virginia Woolf and D H Lawrence Levine departs from the critical norm by reading Hardy in the context of his deep feeling for the natural world and all living things and the implicit affirmation of life that sometimes drives his bleakest narratives
