and elk and cattle in the GYA Since the release of the 1998 report brucellosis has re emerged in domestic cattle and bison herds in that area Given the scientific and technological advances in two decades since that first report Revisiting Brucellosis in the Greater Yellowstone Area explores the factors associated with the increased transmission of brucellosis from wildlife to livestock the recent apparent expansion of brucellosis in non feedground elk and the desire to have science inform the course of any future actions in addressing brucellosis in the GYA Migrations and Management of the Jackson Elk Herd Bruce L.
