Finding Your Superpowers Anne Pflug, 2024-02-20. Develop Your Autistic Superpowers. *Finding Your Superpowers* intentionally mimics and uses popular images of superheroes. The book is a quick read with a fun and approachable format for a wide age range. The author has interviewed families and experts extensively, including talking consulting directly with adults on the spectrum and has included examples, stories from individuals and families as well as resources and further information resources in the text. At the end of each chapter, the reader can note their discoveries. Through their individual strengths, autistic people can experience a positive and fulfilling life. The systems that surround neurodiverse people put more emphasis on the person's deficits and/or developmental delays rather than affirming those differences, often feeding low self-esteem, depression, and anxiety. This book is a guide to engaging or challenging these systems and how to nurture each person's superpowers. It is hard but attainable. Every autistic person is unique in their personal sensory experience, their personal traits, and the effects of autism they experience. The aim of this book is to help you and your allies discover and nurture your personal strengths, be they sensory abilities, personality traits, or interests, to help you live a fuller and more satisfying life. Discovering and nurturing a person's superpowers can bring meaning to life, a feeling of positive self-worth, and a path for a person to follow in contributing to their family and community life. The goal of this book.

Positive Body Image for Kids Ruth MacConville, 2017-01-19. A 16-session programme to help children aged 7-11 build a positive body image. The strengths-based approach develops self-esteem and resilience and helps children understand differences. Sessions also cover the media's role and healthy eating. A training session for staff is included, as well as guidance on how to involve parents.

Big Reactors Claire Lerner, 2025-10-02. An invaluable practical guide that shows parents how to help their highly sensitive child learn to manage their big emotions and thrive. Highly sensitive children (HSCs) process and react to experiences more deeply than other children. They are sometimes called spirited, deeply feeling, or big reactors. These children are amazing, fierce, and feisty, persistent and passionate, insightful and empathetic, but are also prone to more intense and frequent meltdowns. Parenting a big reactor can be challenging and exhausting, but it doesn't have to be. In *Big Reactors: Practical Strategies for Parenting Highly Sensitive Children*, child development specialist Claire Lerner helps parents develop the tools to support their HSC's strengths while also showing them how to cope with everyday challenges. She details the key traits of HSCs, describes the science behind the traits, and shows how parents and other caregivers can help them thrive. Through detailed case descriptions from her decades of work in the trenches, Lerner reveals the process she guides parents through to understand the root cause of their child's challenges and come up with sensitive, effective strategies that work in

real life not just in theory Importantly Big Reactors shows parents how they can be supportive and loving while also setting the limits their fierce and feisty kids need to develop self regulation and build resilience This approach helps parents bring out the best in their passionate creative wonderful sensitive child and creates more peace and joy for the entire family

Success on the Spectrum Emily Wiskera,Anna Smith,Tina Sue Fletcher,Lynda Wilbur,Francis Yong Chen,2024-01-04 The role of arts and cultural institutions is changing Once viewed as stewards of objects institutions are increasingly upheld as stewards of people spaces where the diversity of human experience is asserted explored and celebrated As such they function as public resources and should be equally accessible to all members of diverse communities Individuals with autism spectrum disorder account for a significant portion of the community Advocates are working to shift attitudes and nomenclature with terms such as neurodiversity and sensory friendly becoming more commonplace With this cultural institutions are putting effort into creating tailored programs and resources to welcome neurodiverse visitors who have historically been excluded from these spaces Despite their desire to connect many cultural workers fear they lack the expertise or resources needed to effectively create inclusive spaces and experiences This book s content is presented by museum educators arts administrators occupational therapists and school psychologists contributors with different expertise and perspectives on the stakes of cultural arts experiences for neurodiverse visitors We offer advice based on what has worked for us and share the sometimes difficult lessons learned along the way However this advice comes with the caution there is no one size fits all solution To be truly successful arts and cultural institutions must respond to their unique community and work within the resources and limitations of their institution Our practical goals for the reader are threefold To understand the value of programming for neurodiverse visitors and effectively communicate this to others To build a toolkit of strategies and resources for neurodiverse visitors to have successful visits to cultural institutions no matter the staff size budget or current stages of accessibility To develop evaluation strategies to gauge the impact of offerings for neurodiverse visitors with results that help the reader improve grow and refine for the future
