You Will Be Assimilated David P. Goldman,2020-07-09 America has finally recognized China's bid for world dominance but we're still losing ground Domination of the next generation of mobile broadband is just the tip of the spear Like the Borg in Star Trek China will assimilate you into a virtual empire controlled by Chinese technology China is taking control of the Fourth Industrial Revolution the economy of artificial intelligence and quantum computing just as America dominated the Third Industrial Revolution driven by the computer Long in planning China's scheme erupted into public awareness when it emerged as the world leader in 5G internet America is on track to

become poor dependent and vulnerable unless we revive the American genius for innovation Trade wars and tech boycotts have failed to slow China's plans David P Goldman watched China unfold its imperial plan from the inside as an investment banker in China and strategic consultant and as a principal of a great Asian news organization the Asia Times This is an eyewitness firsthand account of the biggest turning point in world affairs since the Second World War with a clear explanation of what it means for America and for you and what America can do to remain the world's leading superpower

Humans Versus Nature Daniel R. Headrick, 2020 Since the appearance of Homo sapiens on the planet hundreds of thousands of years ago human beings have sought to exploit their environments extracting as many resources as their technological ingenuity has allowed As technologies have advanced in recent centuries that impulse has remained largely unchecked exponentially accelerating the human impact on the environment Humans versus Nature tells a history of the global environment from the Stone Age to the present emphasizing the adversarial relationship between the human and natural worlds Nature is cast as an active protagonist rather than a mere backdrop or victim of human malfeasance Daniel R Headrick shows how environmental changes epidemics climate shocks and volcanic eruptions have molded human societies and cultures sometimes overwhelming them At the same time he traces the history of anthropogenic changes in the environment species extinctions global warming deforestation and resource depletion back to the age of hunters and gatherers and the first farmers and herders He shows how human interventions such as irrigation systems over fishing and the Industrial Revolution have in turn harmed the very societies that initiated them Throughout Headrick examines how human driven environmental changes are interwoven with larger global systems dramatically reshaping the complex relationship between people and the natural world In doing so he roots the current environmental crisis in the deep past
