Zero Theology John Tucker, 2019-07-02 In ZeroTheology John Tucker argues that not only can one be a Christian without holding any traditional beliefs but that one can only be a Christian by getting out of religious belief altogether Utilizing the philosophy of Ludwig Wittgenstein John offers a way of escaping the belief disbelief trap that explains why believers and unbelievers cannot understand each other and why neither understands the alternative religious path that the author promotes Tucker addresses many of today s most pressing religious questions and introduces his own Why do evangelicals believe that homosexual fidelity is more harmful to marriage than heterosexual infidelity Why are believers so bothered by science and so impressed by miracles What if Sin and Grace are synonyms What if Jesus is sinless in an ironic way What is the difference between making judgments and passing judgment Why does the literal versus metaphorical debate completely miss the point of religious language Using Catch 22s ZeroTheology offers a new way of looking at Christian religious life that emphasizes the non reasonable transcendent choice over the perfectly reasonable choice of belief or unbelief

The Window at St. Catherine's John F. Dobbertin Jr., John Dobbertin Jr., 2005-08 If the fates had been just a shade different we might all be flying to and from Cullerton International instead of O Hare International This is the incredible story of Bill Cullerton a leading United States Army Air Force ace in World War Two Few could have survived the harrowing ordeal he experienced Here is a tale of salmon fishing war survival and friendship This is the true story of The Window at St Catherine s The Waffen SS officer takes Bill s gun jams it against his right side just under his rib cage For you the war is over the Waffen SS officer says He pulls the trigger The window at St Catherine s is really a grabber hanging on every word is a clich so I won t use it but it is a good read solidly and well told William A Rooney co author The Enola Gay and the Smithsonian Institution

Transparency Daniel Jutte, 2023-03-28 A wide ranging illustrated history of transparency as told through the evolution of the glass window Transparency is a mantra of our day It is key to the Western understanding of a liberal society We expect transparency from for instance political institutions corporations and the media But how did it become such a powerful and global idea From

ancient glass to Apple's corporate headquarters this book is the first to probe how Western people have experienced conceptualized and evaluated transparency Daniel J. Lee argues that the experience of transparency has been inextricably linked to one element of Western architecture the glass window Windows are meant to be unnoticed Yet a historical perspective reveals the role that glass has played in shaping how we see and interpret the world A seemingly pure material glass has been endowed throughout history with political social and cultural meaning in manifold and sometimes conflicting ways At the same time Lee raises questions about the future of vitreous transparency its costs in terms of visual privacy but also its ecological price tag in an age of accelerating climate change
