Threads Gender Labor And Power In The Global Apparel Industry:

Threads Jane L. Collins, 2009-11-15 Americans have been shocked by media reports of the dismal working conditions in factories that make clothing for U S companies But while well intentioned many of these reports about child labor and sweatshop practices rely on stereotypes of how Third World factories operate ignoring the complex economic dynamics driving the global apparel industry To dispel these misunderstandings Jane L Collins visited two very different apparel firms and their factories in the United States and Mexico Moving from corporate headquarters to factory floors her study traces the diverse ties that link First and Third World workers and managers producers and consumers Collins examines how the transnational economics of the apparel industry allow firms to relocate or subcontract their work anywhere in the world making it much harder for garment workers in the United States or any other country to demand fair pay and humane working conditions Putting a human face on globalization **Threads** shows not only how international trade affects local communities but also how workers can organize in this new environment to more effectively demand better treatment from their distant corporate employers Unmaking the Global Sweatshop Rebecca Prentice, Geert De Neve, 2017-07-31

Anthropologists and ethnographers examine the global garment industry s impact on workers well being The 2013 collapse of Rana Plaza an eight story garment factory in Savar Bangladesh killed over a thousand workers and injured hundreds more This disaster exposed the brutal labor conditions of the global garment industry and revealed its failures as a competitive and self regulating industry Over the past thirty years corporations have widely adopted labor codes on health and safety yet too often in their working lives garment workers across the globe encounter death work related injuries and unhealthy factory environments Disasters such as Rana Plaza notwithstanding garment workers routinely work under conditions that not only escape public notice but also undermine workers long term physical health mental well being and the very sustainability of their employment Unmaking the Global Sweatshop gathers the work of leading anthropologists and ethnographers studying the global garment industry to examine the relationship between the politics of labor and initiatives to protect workers health and safety Contributors analyze both the labor processes required of garment workers as well as the global dynamics of outsourcing and subcontracting that produce such demands on workers health The accounts contained in Unmaking the Global Sweatshop trace the histories of labor standards for garment workers in the global South explore recent partnerships between corporate state and civil society actors in pursuit of accountable corporate governance analyze a breadth of initiatives that seek to improve workers health standards from ethical trade projects to human rights movements and focus on the ways in which risk health and safety might be differently conceptualized and regulated Unmaking the Global Sweatshop argues for an expansive understanding of garment workers lived experiences that recognizes the politics of labor human rights the privatization and individualization of health related responsibilities as well as the complexity of health and well being Contributors Mark Anner Hasan Ashraf Jennifer Bair Jeremy Blasi Geert De Neve Saydia Gulrukh Ingrid Hagen

political economy understanding economies as gendered structures and economic crises as crises in social reproduction as well as in finance and production assessing economic policies through the lens of women's rights analysing global transformations in women's work making visible the unpaid economy in which care is provided for family and communities and critiquing the ways in which policy makers are addressing or failing to address this unpaid economy

Textile Economies Walter E. Little, Patricia A. McAnany, 2011-10-16 Textiles have been a highly valued and central part of the politics of human societies across culture divides and over millennia The economy of textiles provides insight into the fabric of social relations local and global politics and diverse ideologies Textiles are a material element of society that fosters the study of continuities and disjunctions in the economic and social realities of past and present societies From stick loom weaving to transnational factories the production of cloth and its transformation into clothing and other woven goods offers a way to study the linkages between economics and politics The volume is oriented around a number of themes textile production textiles as trade goods textiles as symbols textiles in tourism and textiles in the transnational processes Textile Economies appeals to a broad range of scholars interested in the intersection of material culture political economy and globalization such as archaeologists cultural anthropologists economists museum curators and historians

Confronting Capital Pauline Gardiner Barber, Belinda Leach, Winnie Lem, 2012-10-12 This volume is an exploration of the ways in which political economy as a mode of analysis moves anthropology toward a vital politically engaged form of scholarship It advances the understanding of the struggles of ordinary people in the face of capitalist change In the current economic moment when such changes are tumultuous and the instabilities of capitalism are starkly revealed this book responds to the urgent need for theoretical and methodological approaches for understanding the forces that shape our contemporary world Through ethnographic investigations of the quotidian and through the thematic of politics history and livelihoods which distinguish Marxist political economy in the field of anthropology the authors here reveal the increasing complexity of everyday lives Using examples derived from fieldwork carried out across diverse geographical locations the authors pay particular attention to historical conditions shaping the people's life trajectories In so doing the authors engage critically and with differing emphases with political economy and Marxism as a mode of inquiry This book illustrates the productive tension between observations emerging from the field and theoretical debates that is generated by anthropological ethnography

Satanic Mills or Silicon Islands? Steven C. McKay, 2018-09-05 *Satanic Mills or Silicon Islands* challenges the myth of globalization's homogenizing power arguing that the uniqueness of place is becoming more not less important Steven McKay documents how multinational firms secure worker control and consent by reaching beyond the high tech factory and into local labor markets He also traces the rise of a new breed of privatized export processing zones revealing the state's in these cases the Philippines revamped role in the wider politics of global production Finally McKay gives voice to the women workers themselves as they find meaning identity and agency on and beyond the new shop floor This book deftly weaves

together three critical strands of global studies Southeast Asia as a key site of global production the organization of work in advanced electronics and working class conditions under globalization Drawing on the author s rich analysis of four multinational electronics firms from their boardrooms to boarding houses *Satanic Mills or Silicon Islands* makes a unique contribution to the study of work labor and high tech production [Handbook of Methods in Cultural Anthropology](#) H. Russell Bernard, Clarence C. Gravlee, 2014-07-08 The *Handbook of Methods in Cultural Anthropology* now in its second edition maintains a strong benchmark for understanding the scope of contemporary anthropological field methods Avoiding divisive debates over science and humanism the contributors draw upon both traditions to explore fieldwork in practice The second edition also reflects major developments of the past decade including the rising prominence of mixed methods the emergence of new technologies and evolving views on ethnographic writing Spanning the chain of research from designing a project through methods of data collection and interpretive analysis the *Handbook* features new chapters on ethnography of online communities social survey research and network and geospatial analysis Considered discussion of ethics epistemology and the presentation of research results to diverse audiences round out the volume The result is an essential guide for all scholars professionals and advanced students who employ fieldwork
