Men were as revolutionary in their time as James Agee's text and are now deeply ingrained in the American consciousness. In the first full biography of this intriguing and enigmatic artist, a leading authority on Evans looks beyond the anonymity of his work to reveal the obsessions behind it. *Walker Evans* Svetlana Alpers, 2023-11-07. A magisterial study of celebrated photographer Walker Evans. Walker Evans 1903-75 was a great American artist photographing people and places in the United States in unforgettable ways. He is known for his work for the Farm Security Administration addressing the Great Depression, but what he actually saw was the diversity of people and the damage of the long Civil War. In Walker Evans' renowned art history, Svetlana Alpers explores how Evans made his distinctive photographs. Delving into a lavish selection of Evans' work, Alpers uncovers rich parallels between his creative approach and those of numerous literary and cultural figures, locating Evans within the wide context of a truly international circle. Alpers demonstrates that Evans' practice relied on his camera choices and willingness to edit multiple versions of a shot, as well as his keen eye and his distant, straight-on view of visual objects. Illustrating the vital role of Evans' dual love of text and images, Alpers places his writings in conversation with his photographs. She brings his techniques into dialogue with the work of a global cast of important artists, from Flaubert and Baudelaire to Elizabeth Bishop and William Faulkner, underscoring how Evans' travels abroad in such places as France and Cuba, along with his expansive literary and artistic tastes, informed his quintessentially American photographic style. A magisterial account of a great twentieth-century artist, Walker Evans urges us to look anew at the act of seeing the world, to reconsider how Evans saw his subjects, how he saw his photographs, and how we can see his images as if for the first time.

American Photographs Walker Evans, Lincoln Kirstein, John T. Hill, Jeffrey Ladd, 2011. Walker Evans' *American Photographs* is widely deemed the most important photobook ever published. Originally conceived to be a catalogue to accompany his one-man show at The Museum of Modern Art in 1938, the first solo show MoMA had given to a photographer, it quickly became a document so definitive of its era that curator John Szarkowski wrote that it was difficult to know now whether Walker Evans recorded the America of his youth or invented it. The book opens with images that cite photography immediately, establishing a tension between medium and message, although it is certainly for the message that Evans has become famous. *American Photographs* points over and over again to the unhappy lot of the poor and the dispossessed in 1930s America. Lincoln Kirstein's accompanying essay, famous in its own right, declares: "What poet has said as much. Only newspapers, the writers of popular music, the technicians of advertising and radio have in their blind energy accidentally fortuitously evoked for future historians such a powerful monument to our moment. And Evans' work has in addition intention, logic, continuity, climax, sense, and perfection." *American Photographs* continues to go out of print for long stretches of time, and the first edition of *Errata's* 2009 spread-by-spread reprint followed suit. This revised edition of that volume presents the original 1938 edition with its 87 legendary black and white photographs reproduced in full page rather than quarter-page spreads, the classic Kirstein essay, and a contemporary essay by Evans scholar John T. Hill. Born in St. Louis.
